PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Engineered and maintained **Java Spring Boot microservices**, developing **REST APIs** for inter-service communication and data exchange within an enterprise HR technology platform.
- Designed and implemented **secure coding practices** and **authentication/authorization patterns**, contributing to the overall security posture of critical financial applications.
- Developed and troubleshooted **full-stack capabilities**, building responsive user experiences with **React** and integrating them with reliable **backend services**.
- Executed software solutions in a large corporate environment, performing **technical troubleshooting** and problem-solving beyond routine approaches for complex systems.
- Gathered, analyzed, and synthesized data from large, diverse datasets, developing **visualizations and reporting** to support continuous improvement of software applications.
- Contributed to **CI/CD pipelines** using **Jenkins**, managing code reviews and ensuring the delivery of high-quality production code in an **Agile/Scrum** framework.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, SQL, PostgreSQL, MySQL, Oracle

Frontend Development – React, JavaScript, TypeScript

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, Jenkins, CI/CD, Spinnaker

System Design & Architecture – Distributed Systems, Cloud-Native Patterns, Application Resiliency, Secure Coding Practices

Data Analysis & Reporting – Data Visualization, Reporting, SQL Querying

Methodologies – Agile, Scrum, SDLC

Observability & Monitoring – Splunk, Dynatrace

PROJECTS

Enterprise HR Platform Backend Services

- Developed **Java Spring Boot microservices** to manage employee data, including features for profile updates and access control, processing approximately 500 requests per hour.
- Implemented **RESTful APIs** for seamless integration with frontend applications and other internal systems, adhering to OpenAPI specifications.
- Wrote **SQL queries** against a **PostgreSQL** database to retrieve and manipulate employee records, ensuring data integrity and efficient retrieval for reporting.

Employee Data Visualization Dashboard

- Built an interactive **React dashboard** to visualize key HR metrics derived from large datasets, enabling stakeholders to track employee engagement trends.
- Developed **data pipelines** using Python and SQL to extract, transform, and load data from various sources into a centralized data mart for analysis.
- Designed and implemented **data models** and visualizations in **Power BI**, creating reports that provided actionable insights into workforce analytics for management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
