PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices for internal applications, focusing on secure and stable code delivery for a **large corporate environment**.
- Architected and implemented complex **Java** applications adhering to design standards, enhancing functionality for existing enterprise codebases and building new **APIs**.
- Analyzed and refactored enterprise application codebases, integrating **AI features** and developing new **APIs** to support board meeting preparation workflows.
- Transformed data into actionable insights through analysis and visualization, supporting senior leaders' decision-making for board meetings via internal tools.
- Automated recurring operational issues using **Python scripting**, improving software stability and performance across production systems and reducing manual intervention by approximately **20%**.
- Collaborated within an **agile** environment on solutions integrating with **Microsoft 365 apps**, ensuring code met design standards and facilitated cross-team collaboration.

SKILLS

Languages – Java, Python, SQL

Frameworks – Spring Boot, Spring

Cloud – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Agile, CI/CD, Jenkins, Git, Jira, Docker, Linux, Splunk, Dynatrace, Microsoft 365

AI/ML – AI Integration, Prompt Engineering

PROJECTS

Board Meeting Preparation Platform (Internal Application)

- Developed **Java Spring Boot** backend services to manage meeting agendas, attendee lists, and document repositories for senior leadership.
- Integrated with **Microsoft 365 APIs** to enable seamless document sharing and collaboration within the platform, improving data synchronization.
- Implemented basic **AI integration** for summarizing pre-read materials, reducing preparation time for executives by an estimated **15%**.

Automated Reporting and Data Insight Tool (HCL Technologies)

- Engineered **Python** scripts to automate the generation of weekly operational reports from disparate data sources, saving approximately **8 hours** of manual effort per week.
- Developed a data pipeline using **SQL** and **Pandas** to aggregate and clean data from **PostgreSQL** and **MySQL** databases for analysis.
- Created interactive visualizations and dashboards using **Power BI** to present key performance indicators and trends to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
