PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical support for enterprise applications, diagnosing and resolving production incidents across **Linux** and **AWS** environments, maintaining service level agreements.
- Automated data extraction and reporting tasks using **Python** scripting, reducing manual effort by approximately **15 hours** per week for the operations team.
- Developed and enhanced **Java Spring Boot** REST APIs to support new features and integrate with backend systems, improving data accessibility for internal services.
- Managed and resolved customer-reported issues for enterprise software deployments, documenting solutions and escalating critical problems to engineering teams.
- Configured and maintained **Active Directory** and **DNS Servers** for client environments, ensuring seamless integration and reliable authentication protocols.
- Analyzed and troubleshooted customer issues related to **Single Sign On (SSO)** implementations, facilitating successful user authentication and access to deployed software.

SKILLS

Operating Systems – Linux, Mac OS X, Windows

Cloud & Virtualization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Scripting & Automation – Python, Shell Scripting, PowerShell

Backend Development – Java, Spring Boot, REST APIs

Networking & Security – Firewalls, DNS Servers, LDAP, Active Directory, Single Sign On (SSO), Authentication Protocols

Databases – PostgreSQL, MySQL, Oracle

Support & Monitoring – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Enterprise Application Support & Automation Platform

- Engineered **Python** scripts to automate log analysis and health checks for production Java/.NET applications, reducing incident detection time by an average of **30%**.
- Developed a centralized monitoring dashboard using **Splunk**, consolidating alerts from multiple systems and providing real-time operational visibility for a team of 8 engineers.
- Managed incident response and root cause analysis for P1/P2 issues, implementing corrective actions in a **Linux** production environment with strict SLAs.

Customer Identity and Access Management Integration

- Configured and deployed **Active Directory** integrations for enterprise clients, enabling secure user provisioning and access control for critical business systems.
- Troubleshooted complex customer issues related to **Single Sign On (SSO)** configurations and **LDAP** synchronization, resolving an average of **5** tickets per day.
- Assisted customers with the installation and setup of security software, providing clear technical guidance and ensuring successful product deployment within their existing infrastructure.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
