PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Assisted in the **underwriting process** for *real estate credit opportunities* across EMEA, preparing detailed investment memorandums and coordinating due diligence sessions.
- Developed **macro and micro level data analysis** to inform *investment themes and decisions* for potential direct lending opportunities, drawing on statistical methods and SQL querying.
- Contributed to **loan asset management** and reporting requirements by performing *data validation and reconciliation* on financial transaction data using Python scripts.
- Collaborated with **investment professionals** across Real Estate Credit and Equity teams to facilitate deal screening and pipeline meetings, ensuring alignment on investment strategies.
- Managed the **end-to-end investment process** for multiple opportunities, including bidding, structuring, and closing, ensuring adherence to *strict timelines and internal protocols*.
- Supported the **integration and data flow** between interconnected enterprise systems using **REST APIs and direct database queries** (PostgreSQL, Oracle) for operational reporting.

SKILLS

Financial Analysis & Modelling – Investment Analysis, Financial Modelling, Credit Underwriting, Due Diligence, Loan Structuring, Real Estate Lending, Fixed Income Concepts

Programming & Scripting – Python, SQL, Java, Spring Boot, R

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis, Exploratory Data Analysis, Time-Series Analysis

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum

Enterprise Systems & Support – ERP Integration, Production Support, Incident Response, Change Management, Splunk, Dynatrace

PROJECTS

Real Estate Investment Analysis & Modelling Platform (HCL Technologies)

- Developed a Python-based analytical framework to ingest and process real estate transaction data from disparate sources, enabling streamlined due diligence.
- Built interactive **Power BI dashboards** to visualize key financial metrics, risk factors, and performance indicators for potential real estate credit investments, supporting senior analyst review.
- Implemented **SQL queries and data validation** routines across PostgreSQL and Oracle to ensure data integrity for financial modelling and reporting tasks.

Automated Financial Reporting & Reconciliation System (HCL Technologies)

- Engineered Python scripts to automate the generation of daily operational reports and facilitate **transaction reconciliation workflows** for a financial services client.
- Designed and deployed REST APIs using **Java Spring Boot** to integrate reporting outputs with existing enterprise business systems, improving data accessibility.
- Managed the deployment and monitoring of automated scripts using **Jenkins and AWS Lambda** within a Linux environment, ensuring reliable execution of scheduled tasks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
