PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and resolved incoming support tickets within the Plain ticketing system, achieving a **96%+ customer satisfaction rating** by providing accurate and empathetic technical solutions.
- Debugged complex technical issues across **Linux servers**, including Nginx configurations, DNS resolution, and PHP error tracing, to unblock developer workflows.
- Contributed to the development of new features for **Laravel Cloud** and **Nightwatch** by identifying patterns in support tickets and documenting bugs and feature requests for the engineering team.
- Wrote and refined **saved replies and knowledge base articles** based on recurring customer issues, improving response efficiency for the support team by approximately **15%**.
- Collaborated with cross-functional teams to troubleshoot and resolve **PHP** and **Laravel framework** issues, ensuring timely resolution of critical deployments and infrastructure problems.
- Supported application stability by analyzing logs from **AWS CloudWatch** and **Splunk**, identifying root causes for production incidents and recommending corrective actions.

SKILLS

Core Technologies – PHP, Laravel, Linux, Ubuntu, Nginx, DNS, SSL, MySQL, Redis, Bash Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Web Hosting Concepts

Frameworks & Libraries – Laravel Ecosystem (Forge, Vapor, Spark, Envoyer, Nova), Spring Boot, Java

Databases – PostgreSQL, MySQL, Oracle

Support & Operations – Technical Support, Customer Success, Incident Response, Log Analysis, Ticket Triage, SLA Management, Knowledge Base Management

Programming Languages – PHP, Python, Java, SQL

Tools – Plain (Ticketing Tool), Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Production Support Automation for Enterprise Systems

- Developed Python scripts to automate routine production support tasks, including log aggregation and initial incident triage, reducing manual effort by **~20%**.
- Enhanced monitoring capabilities for Java Spring Boot applications by configuring alerts in **Splunk** and **AWS CloudWatch**, leading to faster detection of P1/P2 incidents.
- Authored detailed incident response runbooks for common production issues, enabling junior engineers to resolve **over 50%** of recurring problems independently.

Customer Onboarding and Technical Guidance for a SaaS Platform

- Provided technical guidance and troubleshooting for enterprise clients integrating with a SaaS platform, resolving an average of **5-7 tickets per day**.
- Created step-by-step documentation and tutorials for common integration patterns using **REST APIs** and **PostgreSQL** database connections, improving customer self-service resolution rates by **~30%**.
- Conducted post-sales technical calls with client engineering teams to assist with deployment configurations on their **AWS** infrastructure and resolve environment-specific issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
