PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained complex attributes using **KEL** and **Python** for insurance risk solutions, collaborating with Modelling and Technology teams.
- Tested attributes for quality, completeness, and consistency using **Python** and **SQL**, ensuring adherence to project requirements for moderately complex initiatives.
- Resolved and fixed bugs within attribute development applications, demonstrating ability to complete moderately complex bug fixes with minimal supervision.
- Partnered with Modelling teams to design and implement new attributes and attribute sets, translating evolving business needs into actionable development tasks.
- Contributed to the implementation of new attributes into the production environment by working with other programmers, ensuring accuracy and stability.
- Authored and updated user guides and training materials for the attribute development application, facilitating knowledge transfer and user adoption across teams.

SKILLS

Core Technologies – KEL, ECL, Python, Java, SQL, C++, R

Data Analysis & Modelling – Data manipulation, Data analysis, Statistical analysis, Machine learning fundamentals, Attribute development

Databases – Relational databases, PostgreSQL, MySQL, Oracle

Development Practices – Agile/Scrum, Code reviews, Bug fixing, Documentation, Change management

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, AWS (EC2/S3/Lambda/CloudWatch), Docker

Domain Knowledge – Insurance risk solutions, Data analytics-driven solutions, Sensitive data sources

PROJECTS

Insurance Attribute Development Framework (HCL Technologies)

- Designed and implemented a reusable attribute development framework in **Python** and **SQL**, incorporating logic for data validation and quality checks.
- Developed a suite of 15 core attributes for risk assessment using **KEL** and **Python**, integrating data from multiple enterprise sources.
- Authored comprehensive documentation and created training modules for the framework, enabling faster onboarding of new developers to the attribute creation process.

Production Data Quality Monitoring Dashboard (HCL Technologies)

- Built an operational dashboard using **Power BI** to monitor data quality and consistency for critical insurance datasets, processing approximately 8,000 records daily.
- Developed **DAX** measures and **Power Query** transformations to aggregate and visualize data quality metrics, identifying and flagging an average of 32 anomalies per week.
- Collaborated with business analysts to refine dashboard requirements and present findings, supporting proactive issue resolution in the production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
