PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and contributed to **AI platform architecture** patterns for integrating emerging AI capabilities across a global enterprise, ensuring scalability and alignment with future roadmaps.
- Researched and evaluated **emerging AI technologies**, including LLMs and agentic frameworks, recommending specific tools for proof-of-concept evaluations to the AI CoE.
- Collaborated with software engineers on focused **proofs-of-concept**, providing the architectural perspective on integration feasibility and strategic alignment with existing enterprise systems.
- Developed **reference architectures** and high-level integration diagrams to guide the adoption of AI technologies across diverse business units.
- Authored **architecture documentation** in formats suitable for both human engineers and AI coding agents, enhancing clarity and usability for development teams.
- Presented technical architecture proposals and findings at **enterprise architecture forums**, influencing technology adoption decisions for large-scale AI initiatives.

SKILLS

AI/ML Technologies – LLMs, RAG, Embeddings, Agent Frameworks, Generative AI

Cloud Platforms – AWS, Azure, GCP

AI Coding Platforms – GitHub Copilot, Claude Code, Cursor

System Design & Architecture – Enterprise Architecture, Integration Patterns, Reference Architectures

Programming Languages – Python, Java, SQL, TypeScript

Documentation – Architecture Documentation, AI Agent-Friendly Formats

Methodologies – Agile, Scrum, Proof-of-Concept Development

PROJECTS

AI Technology Evaluation Framework (HCL Technologies)

- Designed and implemented a structured framework for evaluating new **AI technologies**, including LLMs and agentic frameworks, to guide adoption decisions for enterprise clients.
- Developed a scoring mechanism based on integration complexity, scalability, and potential business impact, which was used to prioritize 7 emerging AI tools for PoCs.
- Authored comprehensive technical assessments and comparative analyses of evaluated technologies, contributing to strategic technology roadmap planning.

Reference Architecture for Enterprise AI Integration (HCL Technologies)

- Contributed to the creation of a **reference architecture** document detailing integration patterns for deploying LLM-based solutions within existing enterprise systems.
- Produced high-level diagrams illustrating data flows and component interactions for common AI use cases, ensuring clarity for both technical and business stakeholders.
- Documented best practices for secure and scalable AI deployments, focusing on aspects like data privacy and model governance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
