PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **cloud-native microservices** and **RESTful APIs** on **AWS** to support data-driven decision-making, handling approximately **3,500 events per second** during peak hours.
- Developed and modernized **web-based data and analytics applications**, improving system performance and maintainability for enterprise clients.
- Contributed to the architecture and evolution of a next-generation **experimentation platform**, collaborating with senior engineers on technical designs and modern architectural patterns.
- Participated in **design and code reviews**, applying best engineering practices such as clean code and robust testing to enhance code quality.
- Collaborated with **Product Management**, **QA**, and **Data Science** teams to translate functional requirements into scalable technical solutions.
- Supported the modernization and optimization of existing systems, including contributions to service-based architectures and cloud scalability efforts to manage increasing data volumes.

SKILLS

Cloud Platforms – AWS, Azure, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, Microservices, RESTful APIs

Data & Analytics Platforms – Databricks, Spark, PySpark, SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, Power BI, Tableau, DAX, Power Query

Development Practices – Agile, Scrum, CI/CD, Jenkins, Git, Code Reviews, Testing, Observability (Splunk, Dynatrace)

Programming Languages – Python, Java, SQL, R, RStudio, Pandas, NumPy, Scikit-learn

Operating Systems & Scripting – Linux, Shell Scripting

Project Management & Collaboration – Jira, Confluence

PROJECTS

Cloud Experimentation Platform Enhancement

- Engineered scalable **backend services** and **APIs** using **Java Spring Boot** and **Python** on **AWS**, supporting data pipelines for an enterprise analytics platform.
- Integrated with **Databricks** to process and transform large datasets for analytical workloads, improving data availability for downstream reporting.
- Implemented unit and integration tests, contributing to a **CI/CD pipeline** managed via **Jenkins**, ensuring reliable deployment of new features.

Interactive Analytics Dashboard Development

- Developed interactive **Power BI dashboards** with complex **DAX measures** and data models to visualize key performance indicators for business stakeholders.
- Performed data extraction, transformation, and loading (ETL) using **Power Query** and **SQL** from various relational databases, including **PostgreSQL** and **MySQL**.
- Collaborated with business analysts to gather requirements and refine dashboard visualizations, leading to a **30% improvement** in report generation speed.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
