PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed data from **sales, planning, finance, operations, and R&D** systems, providing concise reports and visualizations to the Head of PMO.
- Collaborated with departments to integrate and aggregate key business data, enabling improved **business insights** and decision-making.
- Developed and maintained a centralized database for **Business Intelligence reporting**, supporting data aggregation and analysis needs.
- Automated data collection and integration processes using **Python scripting**, reducing manual effort for the Program Management Office.
- Communicated complex data findings through **visual dashboards**, reports, and verbal presentations to various stakeholders.
- Managed the PMO repository of project standards, processes, forecasts, and **change records**, ensuring organizational alignment.

SKILLS

BI Tools – Power BI, Tableau

Programming Languages – Python, R

Data Analysis & Management – SQL, Data Warehousing, ETL, Database Management

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Development Practices – REST APIs, CI/CD, Git, Jenkins

Core Competencies – Data Analysis, Reporting, Business Insights, Stakeholder Communication, Problem-solving, Strategic Thinking

PROJECTS

Enterprise Systems Data Aggregation Platform

- Engineered a Python-based ETL pipeline to extract and aggregate data from disparate enterprise systems (ERP, CRM, Finance) into a centralized **PostgreSQL database**.
- Developed interactive **Power BI dashboards** to visualize key performance indicators for operations and finance teams, enabling quicker identification of process bottlenecks.
- Implemented automated reporting schedules using **cron jobs** on Linux, delivering daily summary reports on system health and data integrity.

Financial Operations Dashboard Enhancement

- Enhanced an existing **payments operations dashboard** by integrating new data streams from reconciliation workflows, improving transaction monitoring capabilities.
- Wrote **SQL queries** across PostgreSQL and Oracle to validate data accuracy and perform root cause analysis on ~1,500 failed transaction alerts per month.
- Collaborated with business analysts to gather requirements for new dashboard features, supporting UAT and post-implementation triage for operational teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
