PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented automated test scripts in **Python** for embedded software verification, integrating with **BitBucket Pipelines** to support continuous integration.
- Executed manual and automated test cases for **embedded software** and **backend applications**, identifying and documenting defects with root cause analysis for mission-critical systems.
- Learned to analyze **technical specifications** and **design documents** to develop comprehensive test plans, collaborating with development teams on test scope for high-reliability systems.
- Developed **Java Spring Boot** REST APIs for system integrations, ensuring robust data exchange and implementing error handling patterns for enterprise applications.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and maintaining service level agreements.
- Authored **Python** scripts to automate ETL processes and scheduled reporting, improving data processing efficiency for operational dashboards.

SKILLS

Languages – Python, Java, C, C++, JavaScript

Embedded & Backend – Embedded Software, Backend Applications, Networking Protocols, Web Front End

Testing & CI/CD – Test Planning, Test Execution, Root Cause Analysis, Automated Test Scripts, CI/CD, BitBucket Pipelines, Jenkins

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – SQL, PostgreSQL, MySQL, Oracle

Development Tools – Git, Jira, Confluence

Core Concepts – Software Development Lifecycle (SDLC), Agile Methodology, System Integration

PROJECTS

Embedded Software Testing Framework (HCL Technologies)

- Developed a reusable test automation framework using **Python** to execute test cases for embedded system components, reducing manual testing effort by an estimated **40%**.
- Integrated the testing framework with **Jenkins** CI/CD pipelines, enabling automated test runs on code commits and providing rapid feedback to the development team.
- Documented test procedures and results, creating comprehensive reports that aided in the verification of software changes for a critical enterprise operations dashboard.

Backend Service Integration & Testing (HCL Technologies)

- Built and tested **Java Spring Boot** microservices that integrated with existing enterprise systems via REST APIs, ensuring seamless data flow and functionality.
- Performed integration testing and root cause analysis on inter-service communication issues, resolving approximately **30%** of reported bugs through systematic debugging.
- Collaborated with business analysts to gather requirements for new features and supported User Acceptance Testing (UAT) for system enhancements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
