PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Collaborated with a cross-functional team of 8 engineers and construction managers to develop comprehensive project plans, ensuring delivery of critical infrastructure components on schedule for enterprise data centre builds.
- Developed detailed scope-of-works (SoW) and responsibility matrices (RACI) for Civil, Structural, and Architectural (CSA) disciplines, ensuring clear task ownership and alignment with project objectives for a multi-national construction firm.
- Reviewed and assessed design proposals from external consultants for suitability and constructability, identifying potential constructability challenges in **Revit models** and proposing Value Engineering (VE) alternatives that reduced material costs by approximately **15%**.
- Managed the review and submission process for technical submittals for CSA packages, coordinating with site teams and ensuring adherence to contract design documents and QEHS standards, facilitating timely procurement for critical path activities.
- Maintained accurate project records, including a **RFI log** and **design change tracker**, identifying and escalating design-related risks to planning and commercial teams to minimise their impact on project timelines.
- Provided technical guidance and support to site teams by preparing comprehensive handover packs for CSA packages, ensuring clear understanding of design specifications and facilitating smooth construction execution across multiple large-scale projects.

SKILLS

Project Management – Scope-of-Works (SoW), Responsibility Matrices (RACI), TIDP, R&R, Procurement Schedule, RFI log, Deviation Tracker, Lessons Learnt log, Issues Tracker, Interface Tracker, Scope Gap Tracker, Design Change Tracker, Value Engineering (VE), Off-site Manufacturing (OSM).

Technical Engineering – CSA Disciplines, Civil, Structural, Architectural, Design Compliance, Design Standards, Risk Assessment, Constructability Review, Material Selection, Handover Packs, Electrical Coordination, Mechanical Coordination, BIM, Revit.

Software & Tools – Jira, Confluence, Git, Jenkins, Splunk, Dynatrace, Oracle, PostgreSQL, MySQL, Linux Shell Scripting.

Development & Automation – Java Spring Boot, Python Scripting, REST APIs, ETL, Data Pipelines, Docker, AWS (EC2, S3, Lambda, CloudWatch).

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, RStudio, pandas, NumPy, scikit-learn.

Methodologies – Agile, Scrum, Change Management, Incident Response, SLA Management.

PROJECTS

CSA Design Package Management System (HCL Technologies)

- Developed a Python-based system to manage and track CSA design packages, integrating with **Jira** for task assignment and **Confluence** for documentation.
- Implemented automated notification workflows for design approvals and RFI escalations, reducing average response time by **30%** for internal review cycles.
- Designed a reporting module using **SQL** queries against PostgreSQL to generate progress summaries and identify overdue tasks for project managers.

Construction Site Data Analytics Dashboard (MSc Project)

- Built an interactive dashboard in **Power BI** visualising key construction site metrics, including progress, resource allocation, and quality control reports from mock project data.

- Engineered ETL processes using **Power Query** to clean and transform raw site logs and timesheet data into a structured format suitable for analysis.
- Applied data modelling techniques to create relationships between different data sources, enabling drill-down capabilities for stakeholders to analyse performance trends.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
