PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Handled an average of 50+ inbound support calls daily via helpdesk system, email, and telephone, resolving user issues and ensuring timely follow-up.
- Managed incident lifecycles for critical IT issues, logging, prioritizing, and escalating tickets to System Admins or third-party support to meet service level agreements.
- Created and disabled user accounts in **Active Directory** and **Azure AD**, managing access permissions and ensuring compliance with security policies for over 100 leavers.
- Provided remote support to end-users using tools such as **Team Viewer** and **RDP**, troubleshooting issues on **Windows 10** and 11 desktops.
- Performed basic administrative tasks including ordering IT equipment for various sites and managing file sharing and printer access within the **Windows** network.
- Supported corporate mobile devices, including setup, distribution, and incident handling for both **iOS** and **Android** platforms.

SKILLS

Support Tools – Helpdesk System, Active Directory, Azure AD, LogMeIn, GoToAssist, VNC, Team Viewer, RDP

Operating Systems – Windows 10, Windows 11, iOS, Android, Linux

Networking – TCP/IP, VPN, Switching, Routing, MS Windows Network

Hardware – PC Hardware, Mobile Devices

Software – MS Office, SAP, Adobe, Bluebeam

Processes – Incident Management, Service Coordination, Change Management, User Account Management, Access Permissions

PROJECTS

Enterprise User Account Management System

- Developed a Python script to automate the creation and disabling of user accounts in **Active Directory** and **Azure AD**, reducing manual effort by approximately 40%.
- Implemented error handling and logging within the script to ensure data integrity and provide audit trails for all account modifications.
- Integrated the script with a basic ticketing system to track and manage account request fulfillment and status.

IT Equipment Procurement and Tracking Tool

- Built a **Flask** application to manage the ordering and tracking of IT equipment for remote sites, improving delivery visibility.
- Designed a simple database schema using **PostgreSQL** to store equipment details, order status, and delivery timelines.
- Created a basic web interface for IT administrators to input new orders and update delivery statuses.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS
