

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented new features for an **operating system update stack**, enhancing discovery and installation processes for core components.
- Collaborated with cross-functional engineering teams to build features enabling efficient updates of **ML/AI models** and applications within the Windows Update Platform.
- Developed and tested new features based on internal and external customer requirements, shipping code through a quarterly planning cycle and improving internal processes by **35%**.
- Addressed security vulnerabilities by architecting resilient components for the update platform, ensuring continuous operation in a security-focused landscape.
- Monitored monthly retail releases, diagnosing and mitigating issues with **98% resolution rate** within the stipulated SLA timeframe.
- Mentored junior developers and interns, providing technical guidance on **Java Spring Boot** development and **Python** scripting for automation.

SKILLS

Languages – Java, Python, C++, C#, JavaScript

Cloud & OS – AWS (EC2, S3, Lambda, CloudWatch), Linux

Development Tools – Git, Jenkins, Docker, Jira, Confluence

Databases – PostgreSQL, MySQL, Oracle

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Concepts – REST APIs, CI/CD, Agile/Scrum, ML/AI Models, Generative AI, Agentic AI, Operating System Fundamentals, Deployment Technology

PROJECTS

Windows Update Client Reliability Enhancement

- Engineered enhancements to the **Windows Update client** code, improving the reliability of update discovery and installation for enterprise customers, reducing critical failures by **22%**.
- Developed automated diagnostic scripts in **Python** to quickly identify root causes for failed update installations across diverse hardware configurations.
- Collaborated with partner teams to integrate new update delivery mechanisms, ensuring seamless deployment of security patches and application updates.

ML Model Integration for Update Pipeline

- Designed and implemented a feature pipeline in **Java Spring Boot** to ingest and process data for integrating new **ML models** into the update recommendation engine.
- Developed a prototype for an **Agentic AI** component within the update platform, demonstrating automated anomaly detection in update telemetry data, achieving **~0.82 F1 score** on a simulated dataset.
- Authored comprehensive technical documentation and conducted knowledge-sharing sessions for the team on the new ML model integration patterns.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
