PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, delivering new features for core enterprise systems and resolving production defects within defined SLAs.
- Automated data extraction and transformation tasks using **Python scripting**, reducing manual effort for scheduled reporting by approximately 40% and improving data accuracy.
- Managed production incidents for enterprise applications on **AWS** infrastructure, performing root cause analysis and implementing corrective actions to minimize service disruption.
- Designed and implemented RESTful APIs in **Java Spring Boot** for seamless integration between disparate enterprise business systems, facilitating cross-system data exchange.
- Executed complex **SQL queries** across **PostgreSQL** and **Oracle** databases for data validation, ad-hoc analysis, and supporting schema evolution in critical operational platforms.
- Contributed to CI/CD processes using **Jenkins** and **Git**, including code reviews and pipeline maintenance to ensure reliable software deployment cycles.

SKILLS

Languages – Java, Python, SQL, R

Frameworks/Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

DevOps/Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

BI/Analytics – Power BI, Tableau, DAX, Power Query, data modelling

Concepts – REST APIs, Microservices, ETL, CI/CD, Agile/Scrum

PROJECTS

Enterprise System Integration Layer (HCL Technologies)

- Engineered a central integration layer using **Java Spring Boot** and **REST APIs** to connect an ERP system with a client's operational dashboard, enabling real-time data synchronization.
- Developed data transformation modules in **Python** to standardize formats between interconnected systems, processing approximately 5,000 records per hour during peak batch operations.
- Implemented comprehensive logging and monitoring using **Splunk** and **CloudWatch**, providing visibility into transaction flows and facilitating rapid issue triage for integrated services.

Financial Operations Analytics Dashboard (HCL Technologies)

- Developed interactive **Power BI** dashboards visualizing key metrics for a financial-services client's payments operations, summarizing transaction success rates and identifying processing bottlenecks.
- Constructed data models in **Power BI** and wrote **DAX** measures to support analytical queries, enabling business analysts to track reconciliation workflows and operational alerts.
- Collaborated with client operations teams to gather requirements for dashboard enhancements and supported User Acceptance Testing (UAT) for new reporting features.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
