PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **production support** for enterprise applications, managing SLAs and responding to P1/P2 incidents across a fleet of **150+ servers** using **Splunk** and **Dynatrace**.
- Developed **Python scripts** to automate data ingestion for reporting dashboards, reducing manual effort by approximately **18 hours per week**.
- Executed **SQL queries** across PostgreSQL and Oracle databases for data validation and ad-hoc reporting, supporting a team of **5 analysts**.
- Implemented **Java Spring Boot** features for internal enterprise systems, including the development of **REST APIs** for cross-service communication.
- Managed incident response and service restoration for revenue-generating services, minimizing customer impact by analyzing **network traffic** and correlating **security events**.
- Assisted in security operations by correlating events from various sources, including **IP addresses**, usernames, and process names to identify anomalies and potential threats.

SKILLS

Security Operations – SIEM, Incident Management, Malware Analysis, Vulnerability Management, Threat Intelligence, Network Security

Networking – TCP/IP, OSI Model, Network Design Principles, Network Protocols

Software Engineering – Java, Spring Boot, Python, REST APIs, SQL, PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Observability & Monitoring – Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling

System Support – Production Support, SLA Management, Change Management, Jira, Confluence

PROJECTS

Enterprise Application Monitoring and Alerting System

- Developed a centralized monitoring dashboard using **Python** and **Flask** to aggregate logs from diverse enterprise applications, presenting critical operational metrics.
- Integrated **Splunk** alerts into a custom notification system, enabling faster P1 incident triage and reducing average response time by **~22%**.
- Configured health checks and performance monitoring for **50+ microservices** running on AWS EC2 instances, ensuring high availability for critical business functions.

Automated Data Reconciliation Service

- Engineered a **Python**-based service to automate the reconciliation of transaction data between two disparate enterprise systems, processing approximately **75,000 records daily**.
- Wrote complex **SQL queries** against PostgreSQL to identify discrepancies and generated detailed reports for business analysts, improving data accuracy by **~15%**.
- Implemented scheduled jobs using **cron** on Linux to run reconciliation processes nightly, ensuring timely data synchronization and reducing manual intervention by the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
