PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Contributed to the design and development of scalable SaaS solutions using **Java Spring Boot**, focusing on building robust REST APIs for interconnected enterprise systems.
- Engineered **Python scripts** to automate data extraction and transformation tasks, supporting scheduled reporting for operational platforms and reducing manual effort by an estimated **15%**.
- Managed production incidents for enterprise applications on **AWS**, performing log analysis in **Splunk** and coordinating P1/P2 issue resolution to meet strict SLAs.
- Developed and maintained **CI/CD pipelines** using **Jenkins** and **Git** for code integration, reviews, and deployment processes within an Agile/Scrum framework.
- Collaborated cross-functionally with business analysts and operations teams to gather requirements, support UAT, and triage post-implementation issues for enterprise business systems.
- Designed and implemented data validation and schema change scripts using **SQL** across **PostgreSQL** and **MySQL** databases to ensure data integrity for reporting workflows.

SKILLS

Programming Languages – Java, Python, SQL, JavaScript, C#.

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux.

Frameworks & Libraries – Spring Boot, Flask, FastAPI, pandas, NumPy, scikit-learn.

Databases – PostgreSQL, MySQL, Oracle.

DevOps & CI/CD – Jenkins, Git, Jira, Confluence.

Monitoring & Observability – Splunk, Dynatrace, CloudWatch.

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R/RStudio.

PROJECTS

Automated Transaction Reconciliation System (HCL Technologies)

- Developed a Python application to automate the reconciliation of financial transaction data between two disparate enterprise systems, processing approximately **50,000 records** daily.
- Engineered REST APIs using **Java Spring Boot** to extract and stage transaction data from source databases (**PostgreSQL**, **Oracle**) for the reconciliation engine.
- Implemented automated alerting and error reporting mechanisms using **AWS Lambda** and **SNS**, notifying operations teams of discrepancies with **98%** accuracy in identified mismatches.

Operational Metrics Dashboard for SaaS Platform (HCL Technologies)

- Built an interactive **Power BI** dashboard visualizing key operational metrics for a SaaS platform, consolidating data from multiple sources including application logs and database performance metrics.
- Created complex **DAX** measures and employed **Power Query** for data transformation and integration, enabling business stakeholders to monitor system health and performance trends.
- Designed and deployed the dashboard to a central reporting portal, providing insights that supported a **12%** improvement in incident response times by highlighting common failure points.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
