PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the Supply Chain Co-ordinator in processing **customer orders** on the **ERP system**, ensuring accurate data entry from receipt through to dispatch.
- Participated in **stocktakes** and routine checks, investigating discrepancies and ensuring accurate **ERP system** updates for inventory levels, including quarantined stock.
- Assisted the purchasing function during peak trading periods, providing critical support to maintain continuity of service for inbound goods.
- Contributed to continuous improvement initiatives within the Supply Chain team, identifying and documenting process enhancements for operational efficiency.
- Developed **Python scripts** to automate data extraction and reporting for inventory reconciliation, reducing manual effort by approximately **15%**.
- Validated and tested data integrity within the existing **ERP system** as part of preparation for a new system implementation.

SKILLS

Supply Chain & Operations – Order Processing, Stock Control, Purchasing Support, Continuous Improvement, Lean Manufacturing

ERP & Systems – ERP Systems, Data Validation, System Testing, Process Alignment

Data Analysis & Tools – Microsoft Excel, Power BI, Data Accuracy, Reporting

Programming & Scripting – Python, SQL

Collaboration & Communication – Teamwork, Stakeholder Communication, Problem Solving

PROJECTS

ERP Data Migration & Validation (HCL Technologies)

- Developed **Python scripts** to extract and validate data from legacy systems against new schema requirements for an enterprise client's ERP migration.
- Performed data cleansing and transformation tasks using **SQL** across **PostgreSQL** and **MySQL** databases, ensuring data accuracy for ~50,000 customer records.
- Collaborated with business analysts to define data validation rules and UAT test cases for the migrated dataset.

Inventory Monitoring Dashboard (HCL Technologies)

- Created an automated reporting solution using **Python** and **SQL** to monitor key inventory levels and alert stakeholders on potential stockouts.
- Designed and implemented a dashboard in **Power BI** to visualize stock levels, turnover rates, and quarantine stock status, providing actionable insights to operations teams.
- Refactored existing SQL queries, improving report generation time by **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
