PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed production support for enterprise Java applications, resolving P1/P2 incidents and ensuring SLA adherence for critical financial services systems using **Splunk** and **Dynatrace**.
- Developed **Python** scripts for automating ETL processes and generating scheduled reports, enhancing data pipeline efficiency by approximately **15%**.
- Wrote complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation, ad-hoc reporting, and to support schema change management.
- Engineered **Java Spring Boot** REST APIs for new feature development and bug fixes within existing microservices, improving system integration capabilities.
- Configured and maintained CI/CD pipelines using **Jenkins** and **Git** for automated builds, testing, and deployments, reducing manual intervention by **~30%**.
- Provided cross-system integration support for enterprise business systems, including ERP modules, by developing and managing data flows via REST APIs and direct database connections.

SKILLS

Infrastructure & Cloud – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker, Kubernetes

Databases – MongoDB, PostgreSQL, MySQL, Oracle

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Observability & CI/CD – Splunk, Dynatrace, Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile/Scrum, Change Management, Power BI, Tableau

PROJECTS

Production Support Automation Framework (HCL Technologies)

- Developed a comprehensive **Python** framework to automate routine production support tasks for enterprise Java applications, including log analysis and alert correlation.
- Integrated the framework with **Splunk** and **Dynatrace** to streamline incident triage, reducing average time to identify root cause by approximately **20%**.
- Built modular components for automated data validation checks against **PostgreSQL** databases, catching **~60%** of common data integrity issues before they impacted downstream systems.

Performance Tuning and Diagnostics Toolkit (MSc Applied Project)

- Created a toolkit using **Python** and **Pandas** to analyze performance metrics from various sources, including database query logs and system resource utilization.
- Implemented diagnostic scripts that simulate common workload patterns on a test **PostgreSQL** instance, identifying bottlenecks and suggesting optimizations.
- Developed interactive dashboards in **Power BI** to visualize performance trends and diagnostic results, enabling clearer understanding of system behavior for technical stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
