PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained production-grade **Java Spring Boot** REST APIs for core business systems, handling cross-system integrations and data flows.
- Automated data extraction and transformation tasks using **Python scripting**, building ETL pipelines that reduced manual reporting effort by approximately **40%**.
- Managed incident response and SLA adherence for critical enterprise applications on **AWS**, analyzing logs with **Splunk** and **CloudWatch** to resolve P1/P2 issues.
- Implemented database schema changes and performed complex data validation queries across **PostgreSQL** and **MySQL** databases for operational reporting.
- Contributed to **CI/CD** pipeline enhancements in **Jenkins**, improving code review turnaround time for the development team.
- Supported enterprise business systems, including ERP modules, coordinating change control management and UAT across interconnected platforms.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Python, Flask, FastAPI

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Monitoring & Observability – Splunk, Dynatrace

Methodologies – Agile, Scrum, Change Management

Enterprise Systems – ERP Integration Support, Payments Operations Dashboard, Transaction Monitoring

PROJECTS

Financial Operations Dashboard Enhancement

- Engineered new Java Spring Boot microservices to ingest and process inbound transaction messages for a financial-services dashboard, improving real-time monitoring capabilities.
- Developed Python scripts to automate the generation of reconciliation reports, reducing manual processing time by approximately **30%** and enhancing data accuracy.
- Collaborated with business analysts to gather requirements for operational alerting, implementing new rules in the dashboard to flag ~2,800 failed payment messages weekly.

Enterprise Data Analytics Platform

- Designed and built interactive **Power BI** dashboards for business stakeholders, consolidating data from multiple enterprise systems to visualize key performance indicators.
- Developed data models and **DAX** measures to support complex analytical queries, enabling stakeholders to derive actionable insights from operational data.
- Performed ETL operations using **Power Query** to clean and transform data from disparate sources before loading into the analytical data store.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
