PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Diagnosed and resolved complex production issues across distributed systems, including database performance bottlenecks and application-level errors, for enterprise clients utilizing **Java Spring Boot** and **PostgreSQL**.
- Developed and maintained **Python** scripts for automating data ingestion and ETL processes, improving data pipeline efficiency by an estimated **18%**.
- Managed incident response and SLA adherence for critical financial services applications, performing root cause analysis and implementing corrective actions within strict timeframes.
- Designed and implemented REST APIs using **Java Spring Boot** for inter-service communication, facilitating seamless data exchange between disparate enterprise systems.
- Administered Linux server environments, focusing on log analysis, shell scripting for task automation, and monitoring system health to ensure operational stability.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements, support User Acceptance Testing, and triage post-implementation issues for system updates.

SKILLS

Database Systems – MongoDB, PostgreSQL, MySQL, Oracle, SQL, NoSQL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP, Docker, Kubernetes

Programming Languages – Python, Java, R, C/C++, Go, Ruby

Operating Systems – Linux, Windows

Tools & Platforms – Splunk, Dynatrace, Jenkins, Git, Jira, Confluence, Power BI, Tableau, Grafana

Networking & Security – DNS, TCP/IP, SSL/TLS, LDAP, Kerberos, Active Directory

Methodologies – Agile, Scrum, DevOps, Infrastructure-as-Code

PROJECTS

Distributed System Performance Tuning and Diagnostics

- Optimized the performance of a large-scale distributed database cluster, identifying and resolving I/O bottlenecks and query inefficiencies in **PostgreSQL**.
- Developed diagnostic tools in **Python** to automate the collection and analysis of system metrics, reducing manual troubleshooting time by **30%** for production incidents.
- Implemented enhanced monitoring and alerting using **Splunk** and custom scripts to provide early detection of performance degradation and potential failures.

Customer-Facing Technical Support Tool Development

- Built a lightweight diagnostic utility in **Java Spring Boot** to assist customers in gathering essential system information for faster issue resolution.
- Designed a user-friendly interface for the tool, enabling less technical users to execute complex diagnostic commands and collect logs with minimal guidance.
- Documented the tool's functionality and usage, creating comprehensive guides that were integrated into the onboarding process for new support engineers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
