PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and refactored native Android applications using **Kotlin** and **Java**, contributing to the next generation of the platform's architecture.
- Owned end-to-end feature development for an Android application component, from initial design through full release cycles.
- Collaborated with core product domains to integrate new features and architectural patterns into the native mobile application.
- Participated actively in **agile practices**, advocating for and implementing improvements in code quality and team culture.
- Engaged in regular **code reviews** and pairing sessions to ensure high code quality and application resiliency.
- Supported core product developers in debugging **Android** and new OS feature issues, maintaining application stability.

SKILLS

Mobile Development – Android, Kotlin, Java, Coroutines, Compose, Transitions, Animations, Client-side Persistence, MVVM, Android Architecture Components, Dagger, DI frameworks

Development Practices – Agile, Kanban, Code Reviews, Pairing, Concurrency

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker

Programming & Scripting – Python, SQL, Shell Scripting

Tools & Collaboration – Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Architecture & Design – REST APIs, Microservices, System Integrations

PROJECTS

Android Feature Development & Architecture (HCL Technologies)

- Engineered a new user profile management module for an enterprise Android application, enhancing data synchronization across devices.
- Implemented **modern Android APIs** and **coroutines** for asynchronous operations, improving UI responsiveness by an estimated 30%.
- Authored comprehensive unit and integration tests, achieving over 85% code coverage for the developed module.

Mobile Application Performance & Observability (HCL Technologies)

- Integrated **Dynatrace** and **CloudWatch** for enhanced application performance monitoring and issue diagnosis on Android clients.
- Developed Python scripts to automate the parsing of crash logs from **AWS S3**, reducing manual triage time by approximately 40%.
- Collaborated with QA teams to identify and resolve performance bottlenecks, contributing to a smoother user experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
