PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Power BI dashboards** for management reporting, translating complex datasets into actionable insights for approximately **15 key stakeholders**.
- Engineered **Python scripts** to automate data extraction and transformation for weekly operational reports, reducing manual effort by an estimated **10 hours per week**.
- Performed **ad-hoc SQL analysis** across multiple databases (PostgreSQL, Oracle) to investigate data discrepancies and support business inquiries, resolving an average of **5 critical issues per month**.
- Contributed to the development of **Java Spring Boot REST APIs** for internal system integrations, focusing on bug fixes and feature enhancements within existing microservices.
- Supported production environments for enterprise applications, responding to P1/P2 incidents and managing **SLA adherence** through proactive monitoring using **Splunk** and **Dynatrace**.
- Collaborated with business analysts and operations teams to gather requirements for new analytics features and support UAT cycles for enterprise systems.

SKILLS

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Dashboards, Management Information (MI)

Programming & Scripting – Python, Java, Spring Boot, Flask, FastAPI, R, RStudio

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, ETL

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum, CI/CD

Analytics & Modelling – Statistical Analysis, Financial Modelling, Exploratory Data Analysis (EDA), Machine Learning Fundamentals, A/B Testing

Domain Knowledge – Finance, Investment Funds, Asset & Liability Management, Data Analytics, Business Intelligence

PROJECTS

Portfolio Performance Analytics Dashboard (MSc Project)

- Designed and implemented an interactive **Power BI dashboard** to visualize investment portfolio performance metrics, incorporating **DAX measures** for complex calculations on financial data.
- Developed **ETL processes using Power Query** to ingest and clean data from multiple sources, ensuring data integrity for the analytical model.
- Conducted **statistical analysis** on historical investment data to identify trends and provide insights, directly supporting the final project report presented to faculty.

Automated Reporting Framework (HCL Technologies)

- Created a suite of **Python scripts** to automate the generation of daily and weekly operational reports for financial services clients, processing approximately **15,000 transaction records** per run.
- Integrated the reporting framework with **SQL databases** (PostgreSQL) to extract relevant data, and scheduled job execution using **Linux cron jobs**.
- Documented the framework's architecture and usage, enabling operations teams to independently generate critical performance metrics and reducing manual reporting time by over **60%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
