PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed and resolved P1/P2 incidents impacting critical enterprise applications, maintaining service level agreements through proactive monitoring using **Splunk** and **Dynatrace**.
- Developed **Python** scripts to automate ETL processes for scheduled reporting, reducing manual data extraction time by approximately 15 hours per week for the financial operations team.
- Engineered and deployed **Java Spring Boot** REST APIs to facilitate cross-system integrations, supporting data flows between ERP modules and operational platforms.
- Designed and implemented **Power BI** dashboards to visualize key performance indicators for business stakeholders, enabling more informed decision-making for risk mitigation programs.
- Wrote complex **SQL** queries across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc reporting, supporting the analysis of ~1,200 claims records per month.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for interconnected enterprise systems.

SKILLS

Data Analysis & BI Tools – Power BI, Tableau, DAX, Power Query, R / RStudio

Programming Languages – Python, Java, SQL

Backend Technologies – Spring Boot, REST APIs, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases – PostgreSQL, MySQL, Oracle

DevOps & Monitoring – Jenkins, Git, Splunk, Dynatrace

Methodologies & Domain – Agile/Scrum, Data Warehousing, ETL, Change Management, Business Intelligence, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** for a financial services client by developing new modules for real-time transaction monitoring and operational alerting on failed payment messages.
- Automated data ingestion and processing using **Python** scripts, improving the timeliness of daily reconciliation reports by 40% and reducing manual effort for the operations team.
- Collaborated with business analysts and operations teams to gather requirements for enhanced reporting features, ensuring alignment with regulatory awareness and audit trail requirements.

Enterprise Systems Integration & Reporting (HCL Technologies)

- Developed **Java Spring Boot** microservices to integrate disparate enterprise systems, enabling seamless data exchange for critical business functions and supporting a user base of over 500 employees.
- Created **SQL**-based data pipelines for extracting and transforming data from ERP modules into a centralized reporting database, supporting the generation of ~20 distinct operational reports.
- Supported post-go-live triage and issue resolution for cross-system integrations, contributing to a 95% success rate for critical data synchronization tasks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
