PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Coordinated the request and **analysis of pension, actuarial, and financial statement data** from multiple portfolio companies, ensuring accuracy for reporting to senior management.
- Assisted in shareholder oversight by performing **detailed analysis of pension disclosures** within financial statements for over 20 state-owned companies.
- Developed **Python scripts** to automate the aggregation and initial validation of financial and actuarial data from disparate sources, reducing manual processing time by approximately **30%**.
- Liaised with **government department officials and personnel within portfolio companies** to gather requirements and clarify data points for pension-related assignments.
- Contributed to the preparation of **high-quality reports for Government Ministers** by synthesising complex pension and financial information into clear, actionable insights.
- Conducted **pensions industry analysis and research** on market trends, providing context for advisory assignments and strategic planning.

SKILLS

Financial Analysis – Pension Analysis, Actuarial Analysis, Financial Statement Analysis, Market Research, Data Aggregation

Programming & Scripting – Python, SQL

Data Visualization & Reporting – Power BI, Tableau, MS Excel, MS PowerPoint, MS Word

Project Management & Collaboration – Stakeholder Management, Requirements Gathering, Report Preparation, Team Collaboration

Domain Knowledge – Pensions, Corporate Finance, Public Sector Advisory

PROJECTS

Portfolio Company Pension Data Analysis Framework (HCL Technologies)

- Designed and implemented a **Python-based framework** to collect, cleanse, and structure pension-related data from diverse sources across multiple enterprise clients.
- Developed **SQL queries** to validate data integrity and perform initial analytical checks on actuarial and financial statement data, identifying discrepancies in approximately **15%** of incoming datasets.
- Generated automated summary reports using **Power BI**, highlighting key financial metrics and pension liabilities for internal review and client-facing discussions.

Financial Statement Analysis & Reporting Tool (MSc Data Analytics)

- Built an interactive **Power BI dashboard** that visualizes key performance indicators and financial health metrics extracted from annual reports of public companies.
- Applied **DAX measures** to calculate complex financial ratios and trends, enabling stakeholders to quickly assess company performance and risk.
- Integrated **Power Query** to automate the ETL process for financial statement data, reducing data preparation time for analysis by over **50%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
