PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **Tier 1 support** for the **Dayforce HRIS platform**, diagnosing and resolving user-reported issues with core HR and time-tracking modules.
- Performed basic **Dayforce configuration** across Core HR and Payroll modules, including updates to employee data fields and workflow adjustments.
- Monitored and supported **data integrity** within the HRIS system through regular audits and validation checks, contributing to improved payroll accuracy.
- Configured and maintained standard **Dayforce reports**, partnering with HR Services and Payroll to deliver timely and accurate data for operational decision-making.
- Supported User Acceptance Testing (UAT) for system patches and minor releases, validating configuration changes and documenting test outcomes.
- Assisted with the maintenance of system documentation and standard operating procedures for HRIS processes, ensuring clear guidance for system users.

SKILLS

HRIS Platforms – Dayforce, HRIS System Support

HR & Payroll Processes – Core HR, Time & Attendance, Payroll, Talent Management

System Support & Troubleshooting – Tier 1 Support, Issue Resolution, Root Cause Analysis, Testing, Validation

Data Management – Data Integrity, Data Audits, Data Validation, Compliance Testing

Reporting & Analytics – Ad Hoc Reporting, Standard Reporting, Dashboards, Data Visibility

Configuration & Maintenance – System Configuration, Regression Testing, SOP Maintenance, Documentation

PROJECTS

HRIS Data Audit and Reporting Enhancement (HCL Technologies)

- Developed Python scripts to automate data validation checks against employee records in a PostgreSQL database, identifying approximately **15% discrepancies** in job title and department codes.
- Built a series of **Power BI dashboards** to visualize key HR metrics derived from system data, providing insights into employee demographics and tenure for internal HR stakeholders.
- Collaborated with business analysts to refine reporting requirements, ensuring the generated reports accurately reflected operational needs and supported compliance efforts.

Automated HR Process Documentation Tool (HCL Technologies)

- Designed and implemented a Java Spring Boot REST API to manage and retrieve standardized operating procedures for HR systems.
- Created a simple web interface using basic HTML/JavaScript to allow HR teams to search and access procedure documents, reducing manual search time by an estimated **20%**.
- Integrated the API with a MySQL database for storing and querying SOP content, ensuring efficient retrieval for end-users.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
