PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed a **strategic supplier audit programme** for a key medical device client, ensuring adherence to **GMP** and **ISO 13485** standards across their component supply chain.
- Led **supplier qualification and onboarding** for 5 new component vendors, including conducting comprehensive **risk assessments** and on-site evaluations to verify quality systems.
- Drove **corrective and preventive actions (CAPA)** based on supplier performance metrics, reducing non-conformance reports for critical parts by **18%** over a six-month period.
- Served as the primary quality interface with suppliers, resolving complex **supplier-related non-conformances** through root cause analysis and collaborative action plans.
- Evaluated supplier quality systems and internal controls, providing **clear, actionable feedback** that supported continuous improvement initiatives for 3 key partners.
- Translated complex **technical and regulatory concepts**, including FDA QSR requirements, for non-technical stakeholders and senior leadership during project reviews.

SKILLS

Quality Assurance – Supplier Quality Engineering, Supplier Qualification, Supplier Audits, Risk Assessment, CAPA, GMP, ISO 13485, FDA QSR, EU MDR

Engineering & Technical – Java, Spring Boot, Python, SQL, REST APIs, Linux, Docker

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Change Management

PROJECTS

Supplier Quality Management System Enhancement (HCL Technologies)

- Developed and implemented a centralized **supplier quality dashboard** using Power BI, aggregating performance data from multiple sources to provide a unified view for quality managers.
- Automated the generation of monthly supplier performance reports using Python scripts, reducing manual effort by approximately **15 hours** per reporting cycle.
- Integrated data from incident tracking systems and quality databases to identify systemic risks and proactively recommend process improvements for key suppliers.

Component Quality Data Analysis & Reporting (MSc Applied Project)

- Analyzed a large dataset of component quality inspection results using R and pandas to identify trends and outliers in manufacturing defects.
- Built interactive **Tableau dashboards** to visualize quality metrics and root cause analysis findings for a hypothetical medical device manufacturing scenario.
- Performed statistical analysis, including hypothesis testing, to validate the impact of supplier process changes on component defect rates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
