PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed timely and accurate **client billing** for multiple legal entities, meeting strict month-end reporting deadlines and ensuring revenue recognition accuracy.
- Executed the collection of fee debtors by generating **payment instructions** and banking entries, adhering to agreed company and client procedures.
- Facilitated the timely capture and accurate accrual of revenue for new and terminated business by collaborating with **New Business, Client Services, and Operations Teams**.
- Resolved **client and business queries** through regular liaison and relationship development with Client Services and Business partners, ensuring timely documentation and escalation.
- Developed and maintained client static data, ensuring precise interpretation of **documented fee arrangements** and their correct reflection in legal books.
- Contributed to fee-related **internal and external audits** by providing detailed input and ensuring adherence to SOX and audit requirements, strengthening existing controls.

SKILLS

Financial Operations – Client Billing, Revenue Recognition, Fee Management, Accruals, Month-End Close, Debt Collection, Audit Compliance, SOX Compliance

Data Analysis & Reporting – MS Excel (Advanced), Data Modelling, Financial Reporting, Business Intelligence, Power BI, Tableau

System & Process Management – Change Management, Process Improvement, Incident Resolution, Stakeholder Management, Cross-functional Collaboration

Core Technologies – SQL, PostgreSQL, Java, Spring Boot, Python, REST APIs, AWS, Linux, Git, Jenkins

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace, Power Query

PROJECTS

Automated Fee Accrual and Billing System (HCL Technologies)

- Developed a Python-based system to automate the calculation and accrual of client fees, integrating with existing **PostgreSQL** databases to pull transaction data.
- Engineered automated report generation for client billing, reducing manual effort by an estimated **30%** and improving accuracy in revenue capture for month-end close.
- Designed RESTful APIs using **Java Spring Boot** to facilitate data exchange between the new accrual system and the primary client management platform.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced an existing **payments operations dashboard** by integrating new data sources via SQL queries to provide more comprehensive transaction monitoring capabilities.
- Created interactive visualizations in **Power BI** to present key operational metrics, including failed payment rates and reconciliation status, to business analysts and operations teams.
- Implemented scheduled data refreshes using **Python scripting** and Cron jobs on Linux, ensuring the dashboard displayed up-to-date information for timely issue identification.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
