PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the **IT Support queue**, prioritizing and resolving an average of 45 tickets per week using **Jira**, ensuring timely resolution of P1/P2 incidents.
- Provided on-site **IT support** to enterprise clients, performing **server and laptop setups**, repairs, and software installations to maintain operational continuity.
- Supported the **Office 365 environment**, including user administration, mailbox management, and troubleshooting common application issues for a user base of over 500 employees.
- Documented support processes and procedures for the **service desk team**, creating **runbooks** that reduced average resolution time for common hardware failures by **15%**.
- Configured and maintained user **software and communications equipment**, ensuring seamless integration with existing network infrastructure and adherence to security protocols.
- Collaborated with cross-functional teams to resolve escalated **IT issues**, acting as a liaison with **third-party vendors** for hardware and software support escalations.

SKILLS

Cloud Infrastructure – Azure, Office 365 Administration, AWS (EC2, S3, Lambda, CloudWatch)

Server & Endpoint Management – Server Administration, Laptop Setups & Repairs, Active Directory

Networking – On-premise networking, Cisco

IT Support Tools – Jira, Confluence, Splunk, Dynatrace

Operating Systems – Linux, Windows

Scripting & Automation – Python, Shell Scripting

Development Practices – CI/CD, Git, Jenkins

PROJECTS

Cloud Infrastructure Deployment and Management (HCL Technologies)

- Deployed and configured **AWS EC2 instances** and managed **S3 buckets** for a client's new application hosting environment, ensuring secure data storage and accessibility.
- Automated routine server health checks and log analysis using **Python scripts** and **Linux shell scripts**, reducing manual monitoring effort by approximately **30%**.
- Participated in **CI/CD pipeline** setup using **Jenkins** and **Git** for automated application deployments, improving deployment frequency for a critical internal service.

Enterprise Systems Support & Automation (HCL Technologies)

- Provided production support for enterprise business systems, including troubleshooting **Java Spring Boot** REST APIs and resolving database connectivity issues in **PostgreSQL**.
- Developed **Python scripts** for data extraction and reporting from **MySQL** databases, automating tasks previously handled manually and saving an estimated **5 hours** per week.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for interconnected enterprise platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
