+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • Stamp 1G — Full-Time Work Eligible

PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and executed comprehensive test strategies for enterprise applications, focusing on **requirement analysis** and **UAT testcase design** to enhance production stability.
- Managed the end-to-end **defect management lifecycle**, from identification and logging in **Jira** to verification of fixes, reducing critical bug recurrence by **18%**.
- Authored detailed user test scripts for multiple applications and workflow procedures, specifically targeting **automation effectiveness** within **payments processing software**.
- Performed **functional and UAT testing** on complex payment processing software applications, contributing to the reduction of production incidents by an estimated **22%**.
- Developed and maintained **re-usable regression test suites**, ensuring application stability across iterative development cycles using **Agile (Scrum)** methodologies.
- Wrote and executed **SQL scripts** for database migration testing and data validation, ensuring integrity during system updates and cross-system integrations.

SKILLS

Testing & QA – Functional Testing, UAT, Regression Testing, Test Strategy, Test Case Design, Defect Management, SQL Scripting, Requirement Analysis

Domain Knowledge – Corporate Banking, Payments Processing Software, Workflow Processes, Risk Automation Controls

Development & Scripting – Python, Java, SQL, Spring Boot, REST APIs

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

Operating Systems & Databases – Linux, PostgreSQL, MySQL, Oracle

PROJECTS

Payment Processing Application QA Enhancement

- Designed and implemented a comprehensive QA strategy for a core payments processing application, focusing on **functional and UAT test execution**.
- Developed detailed **test cases** and automation scripts to cover complex transaction workflows, improving defect detection rates by **30%** in pre-production phases.
- Collaborated with business analysts and developers to refine requirements and ensure successful **user acceptance testing** sign-off.

Database Migration Testing Framework

- Created a reusable framework for executing **SQL scripts** to validate data integrity and consistency across database migrations for enterprise systems.
- Automated the execution of regression tests using **Python**, reducing manual testing effort by approximately **25%** for routine data validation tasks.
- Documented and managed defects found during migration testing, working with the development team to resolve issues before go-live.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
