PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided **first- and second-line application support** for laboratory information management systems, troubleshooting software, configuration, and user access issues for over **150 laboratory users**.
- Supported **SQL database activities** for laboratory systems, including monitoring and basic troubleshooting, coordinating with database administrators to resolve approximately **12 critical incidents** per quarter.
- Assisted with **system validation activities**, including IQ/OQ/PQ support and impact assessments for GxP systems, ensuring compliance with data integrity requirements and company policies.
- Created and updated technical documentation, including **SOPs and Work Instructions**, for supported lab applications, improving the clarity of support playbooks for a team of **5 support engineers**.
- Managed **system configurations and user access controls** for laboratory applications in accordance with GMP and company policies, ensuring adherence to data integrity and cybersecurity standards.
- Collaborated with laboratory users to understand workflows and provide **user training and guidance**, leading to a documented **18% reduction** in common user-error tickets.

SKILLS

Application Support – LIMS, Empower, Caliber, FTIR, UV software, RF Smart, incident response, service requests, troubleshooting

Database Management – SQL, backup, restore, monitoring, basic troubleshooting, PostgreSQL, MySQL, Oracle

System Integration & Compliance – instrument integration, enterprise systems, data flow, GMP, ALCOA+, data integrity, cybersecurity, IT Quality policies

Validation & Change Management – IQ/OQ/PQ support, change control, impact assessments, validation documentation, periodic reviews, change management procedures

Documentation & Training – SOPs, Work Instructions, Configuration Specifications, validation documents, support playbooks, user training, user guidance

Core Technologies – Java Spring Boot, Python scripting, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Laboratory System Reliability and Data Integrity Project (HCL Technologies)

- Enhanced monitoring for critical laboratory systems, implementing **Splunk alerts** that reduced mean time to detect for system failures by **30%**.
- Developed Python scripts to automate data validation checks for instrument interfaces, ensuring adherence to ALCOA+ principles and catching **~15%** of potential data discrepancies before they impacted downstream analysis.
- Supported the creation of **detailed system documentation** and audit trail reviews for regulatory inspections, contributing to a successful internal audit with zero findings related to system support.

Enterprise System Integration and User Access Control

- Integrated a new laboratory instrument module with the existing **ERP system** via REST APIs, ensuring reliable data flow for sample tracking across **3 key departments**.
- Managed user roles and permissions for a suite of enterprise business systems, implementing a **standardized access control model** that improved audit trail clarity and reduced unauthorized access incidents by **22%**.
- Refactored SQL queries for cross-system data synchronization, optimizing performance and reducing data load times by **~40%** for critical reconciliation workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore,
India**

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
