PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and validated data sets for actuarial analysis, ensuring accuracy through rigorous **data validation** and **reconciliation** processes, supporting the creation of approximately **15 core reports** per quarter.
- Supported the testing and maintenance of actuarial models, contributing to the refinement of assumptions and reports for a key financial-services client dashboard.
- Engineered **Python scripts** to automate data extraction and transformation tasks, reducing manual processing time for scheduled reporting by an average of **40%**.
- Implemented and maintained **Java Spring Boot** REST APIs for system integrations, facilitating data exchange between enterprise business systems and operational platforms.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to SLAs within a **Linux** and **AWS** environment, resolving an average of **18 critical tickets** monthly.
- Collaborated with business analysts and operations teams to gather requirements and support User Acceptance Testing (UAT) for system configuration updates, ensuring smooth post-go-live transitions.

SKILLS

Actuarial & Analytics Tools – R, Python, SAS, SQL, Power BI, MS Excel, Tableau, DAX, Power Query

Programming Languages – Java, Python, SQL, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Backend Frameworks – Spring Boot, Flask, FastAPI

Observability & Monitoring – Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Actuarial Data Pipeline and Model Support (HCL Technologies)

- Developed a **Python**-based data pipeline to ingest and clean transaction data from multiple sources for actuarial analysis, processing approximately **50,000 records daily**.
- Assisted in the testing and validation of an actuarial model's assumptions and outputs, contributing to a **15% improvement** in projection accuracy for a core product line.
- Created interactive **Power BI dashboards** visualizing key actuarial metrics and trends, enabling stakeholders to make data-informed decisions on product pricing.

Enterprise Systems Integration and Automation (HCL Technologies)

- Automated routine data reconciliation tasks between ERP modules and a financial operations dashboard using **Python scripting**, saving an estimated **20 hours per month** of manual effort.
- Designed and implemented **REST APIs** in **Java Spring Boot** to connect disparate enterprise systems, improving data flow efficiency by approximately **22%**.
- Managed change control processes for system configuration updates, coordinating UAT and post-implementation support across interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
