PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and analyzed **operational and financial data** for the Co-ordination of Benefits value stream, delivering insights that informed business planning and addressed approximately **500** key performance indicators monthly.
- Led a team of **3 business analysts** in delivering regular reporting and trend analysis, meeting savings validation targets and presenting findings to senior executives and external partners.
- Designed and automated **reporting processes** for daily, weekly, and monthly business results, reducing manual effort by an estimated **40%** and improving data accuracy.
- Developed and presented **ad-hoc client and operational reports**, translating complex analyses into clear, actionable recommendations for operations and finance stakeholders.
- Collaborated with key partners in **Operations, Finance, and Partner Services** to gather requirements, validate savings, and support UAT for system enhancements.
- Conducted **business process and workflow analysis**, providing evaluations and process improvement recommendations that enhanced operational efficiency for payment integrity services.

SKILLS

Business Analysis & Reporting – Business Analysis, Operational Analysis, Financial Analysis, Reporting, Forecasting, Trending, Metrics, KPIs, Process Improvement, Benchmarking, Workflow Analysis

Data Analysis & Visualization – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Excel, Access, R, RStudio

Programming & Scripting – Python, Java, Spring Boot, SQL, Pandas, NumPy, Scikit-learn, Flask, FastAPI

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development & Operations – REST APIs, CI/CD, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Payment Operations Dashboard Enhancement

- Developed and maintained a **payments operations dashboard**, integrating data from PostgreSQL and Oracle databases to monitor transaction flows and operational alerting for approximately **3,200** failed payments weekly.
- Automated data extraction and reporting using **Python scripting**, generating daily reconciliation reports that reduced manual data compilation time by **35%**.
- Collaborated with business analysts to refine dashboard metrics and present operational trends, supporting UAT for new feature releases and triaging post-implementation issues.

Financial Services Data Analytics & Reporting

- Built interactive **Power BI dashboards** visualizing key operational metrics for a financial services client, enabling stakeholders to track performance against internal targets.
- Designed and implemented **DAX measures** and data models within Power BI to support complex analytical queries and provide insights into transaction processing times.
- Performed **ETL processes using Power Query** to clean and transform data from disparate sources, ensuring data integrity for reporting and analytical purposes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
