PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **publicly consumable REST APIs** using **Spring Boot**, ensuring secure endpoints with **Spring Security** to support external client integrations.
- Managed and troubleshooted production systems, contributing to operational evaluations and participating in **incident response**, triage, and root cause analysis for critical issues.
- Implemented and enhanced **automated controls** for external APIs, focusing on reliability and security through regular testing and code reviews within a value stream team.
- Integrated **observability** into API operations processes, leveraging tools for monitoring and performance analysis to ensure system health and proactive issue detection.
- Collaborated closely with **Data Engineers** and **Automation Engineers** within a multidisciplinary team to deliver enhancements for existing BI products.
- Participated in sprint ceremonies, contributing to design discussions and technical reviews to drive product development and uphold software engineering best practices.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Spring Security, Microservices

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, CI/CD, GitHub Actions

Databases – PostgreSQL, MySQL, Oracle, SQL

Scripting & Automation – Python, Shell Scripting

Agile & Collaboration – Jira, Confluence, Scrum, Technical Reviews, Stakeholder Communication

PROJECTS

Enterprise API Gateway Enhancement (HCL Technologies)

- Engineered a **REST API gateway** using **Java Spring Boot** to manage and secure inbound requests for multiple internal services, enhancing system interoperability.
- Implemented **rate limiting and authentication** middleware within the gateway to protect backend services from abuse and ensure client token validity.
- Developed automated deployment pipelines using **Jenkins**, reducing deployment time for API updates by approximately **30%** and improving release cadence.

Production Observability Dashboard (HCL Technologies)

- Built a **Power BI dashboard** to consolidate operational metrics from **Splunk and Dynatrace**, providing a unified view of system health for enterprise applications.
- Integrated real-time alerts for critical P1/P2 incidents, enabling faster **incident response** and reducing average time to detect by an estimated **15%**.
- Collaborated with operations teams to define key performance indicators and data sources, ensuring the dashboard accurately reflected production system status.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
