PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal microservices, handling approximately 1,500 requests per minute during peak hours.
- Automated data extraction and transformation tasks using **Python scripting**, reducing manual reporting effort by an estimated 15 hours per week for the operations team.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within defined SLAs, contributing to a **98.7%** service availability.
- Designed and implemented **Power BI dashboards** that visualized key performance indicators for business stakeholders, enabling more timely decision-making.
- Wrote complex **SQL queries** across **PostgreSQL** and **Oracle** databases for data validation and ad-hoc reporting, supporting the reconciliation workflows for financial transactions.
- Participated in Agile ceremonies, including sprint planning and retrospectives, and managed defect tracking and resolution using **Jira** and **Confluence**.

SKILLS

Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Observability & Monitoring – Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by developing new **Java Spring Boot** modules to process and display real-time transaction status updates.
- Implemented automated data validation checks using **Python** and **SQL**, reducing data discrepancies in transaction monitoring reports by approximately **22%**.
- Collaborated with business analysts to gather requirements for new alerting features, improving the team's ability to respond to failed payment messages.

Automated Data Pipeline for ERP Integration (HCL Technologies)

- Developed an automated **Python** data pipeline to extract and transform data from legacy systems into a format compatible with the client's **ERP** modules.
- Integrated the pipeline with **PostgreSQL** and **MySQL** databases, ensuring data consistency across interconnected business systems.
- Managed the deployment of pipeline updates via **Jenkins**, maintaining a consistent data flow for operational reporting and analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
