PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for core business systems, supporting cross-system data flows and integrations with enterprise resource planning modules.
- Automated data extraction and transformation processes using **Python scripting**, enabling scheduled reporting and reducing manual data handling for operational teams by approximately 15 hours per week.
- Managed production incident response for enterprise applications on **AWS**, utilizing **Splunk** and **CloudWatch** for log analysis and performance monitoring, ensuring adherence to strict service-level agreements.
- Developed and maintained **PostgreSQL** database schemas and executed complex SQL queries for data validation and system integration tasks across interconnected platforms.
- Contributed to CI/CD pipelines using **Jenkins** and **Git** for automated builds, testing, and deployments, facilitating efficient code reviews and release management.
- Collaborated with business analysts and operations teams to gather requirements, support user acceptance testing (UAT), and triage post-implementation issues for financial-services dashboards.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Methodologies – Agile, Scrum, Change Management

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** by building fault-tolerant **Java** consumers to parse inbound transaction messages, improving real-time visibility into processing workflows.
- Developed **Python** scripts to automate the generation of daily operational reports, reducing manual effort by ~10 hours per cycle and increasing data accuracy for reconciliation.
- Implemented robust alerting mechanisms within the dashboard using **SQL** queries against **PostgreSQL** to flag failed or stuck payment messages, enabling faster incident resolution for the operations team.

Enterprise Systems Integration Automation (HCL Technologies)

- Automated cross-system data synchronization between an ERP module and a client-facing platform using **Python** and **REST APIs**, ensuring data consistency across interconnected business systems.
- Refactored existing **SQL** scripts for data migration and validation tasks, reducing execution times by 20% and improving the reliability of change-control managed updates.
- Created comprehensive documentation and runbooks for automated integration processes, facilitating smoother UAT and post-go-live support for system configuration changes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
