PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed and maintained **publicly consumable REST APIs** using **Spring Boot**, implementing security measures and ensuring operational stability for external clients.
- Enhanced **automated controls** on external APIs to improve system resilience and facilitate **self-serve client token lifecycle management**, reducing manual intervention by approximately 30%.
- Integrated **observability** into production systems via **Splunk** and **CloudWatch**, enabling proactive issue detection and faster root cause analysis for API-related incidents.
- Collaborated within a multidisciplinary value stream team, contributing to sprint ceremonies, technical design discussions, and code reviews for enhancements to existing **BI products**.
- Supported incident response and **root cause analysis** for production issues impacting **web-based analytics dashboards**, ensuring minimal disruption to end-users.
- Refactored existing **Java Spring Boot** services to improve performance and maintainability, contributing to the overall health of the mature **BI product**.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Microservices, NestJS, Node.js, Rust

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP

Databases – PostgreSQL, MySQL, Oracle, SQL, Relational Databases

DevOps & CI/CD – Jenkins, GitHub Actions, Git, Docker, Kubernetes, Linux Shell Scripting

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, PagerDuty

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data Warehousing, Data Modelling, Pandas, NumPy, R, scikit-learn

API Security & Management – Spring Security, OAuth, Token Management, API Gateways

PROJECTS

Enterprise Application Support & Enhancement (HCL Technologies)

- Provided production support for a suite of **Java Spring Boot** applications, resolving P1/P2 incidents within strict SLAs using **Splunk** and **Dynatrace** for monitoring.
- Automated routine data validation and reporting tasks using **Python scripting**, reducing manual effort for the operations team by an estimated 20% weekly.
- Developed and deployed REST APIs for cross-system integration, facilitating data exchange between ERP modules and operational platforms across **PostgreSQL** and **Oracle** databases.

Financial Services Operations Dashboard (HCL Technologies)

- Contributed to the development and maintenance of a **payments operations dashboard**, focusing on transaction monitoring and alerting for failed payment messages.
- Wrote **SQL queries** against relational databases to support data validation and reconciliation workflows, ensuring data integrity for financial operations.
- Collaborated with business analysts and operations teams to gather requirements for new dashboard features and support UAT cycles, ensuring alignment with client needs.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
