PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed daily hardware requests and inventory accuracy for a fleet of ~**1,500 devices**, performing receiving, inspection, and cycle counting.
- Configured and set up hardware, including laptops and network equipment, for deployment to internal sites, ensuring readiness for operational use.
- Developed **Python scripts** to automate data entry and transaction processing within Oracle applications, improving data accuracy for operational reports by ~**15%**.
- Analyzed operational status and performance trends, generating daily reports for management and recommending process improvements for efficiency gains.
- Updated and refined operational procedures for hardware handling and distribution, ensuring compliance with internal policies and improving documentation clarity.
- Troubleshoot basic hardware and system issues independently, escalating complex problems to management and contributing to problem-solving efforts.

SKILLS

Hardware Operations – Hardware requests, Receiving, Inspection, Put away, Cycle counting, Configuration, Setup, Installation, Shipping, Distribution

Inventory Management – Inventory accuracy, Material planning, Scheduling

Software & Systems – Oracle applications, Microsoft Office, Linux

Process Improvement – Procedure review, Cost savings, Efficiency, Productivity

Reporting & Analysis – Operational reports, Performance trends, Data entry, Data analysis

Logistics & Distribution – Logistics, Hardware distribution, Parcel Carrier Procedures, Transportation Networks

Technical Skills – Python scripting, Technical skills, Quick learner

PROJECTS

Hardware Operations Process Automation (HCL Technologies)

- Automated the processing of daily hardware requests using **Python scripts**, reducing manual data entry time by ~**40%** for the operations team.
- Developed a system for tracking hardware configurations and deployment status, improving visibility for a team of 8 analysts.
- Created standardized documentation for hardware receiving and inspection procedures, ensuring consistent quality control across all incoming equipment.

Logistics Data Analysis and Reporting (MSc Project)

- Analyzed shipping and receiving data from a simulated logistics dataset using **Power BI** and **DAX** to create interactive dashboards.
- Identified key performance indicators for delivery times and inventory accuracy, presenting findings to stakeholders to highlight areas for improvement.
- Performed data cleaning and transformation using **Power Query**, preparing a dataset of over 50,000 records for analysis and visualization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
