PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Supported the end-to-end recruitment process for graduate and junior roles, managing a pipeline of over 150 candidates per quarter.
- Screened and assessed over 50 CVs weekly, identifying suitable candidates for initial outreach and interview scheduling.
- Managed job advertisements across multiple platforms including LinkedIn and the company careers page, ensuring consistent branding and up-to-date postings.
- Coordinated interview schedules between candidates and hiring managers, facilitating timely feedback loops and maintaining recruitment timelines.
- Maintained and updated the **Applicant Tracking System (ATS)** with candidate progress and hiring status, ensuring data accuracy for over 200 active requisitions.
- Assisted with the initial stages of offer negotiation and contract generation for selected candidates, liaising with HR and hiring managers.

SKILLS

Recruitment Process – End-to-end recruitment, Candidate management, Job posting, CV screening, Interview scheduling, Offer negotiation, ATS management

Tools & Platforms – LinkedIn Recruiter, BambooHR, Jira, Confluence, Microsoft Office Suite

Communication & Organisation – Written communication, Verbal communication, Engaging content creation, Organisational skills, Project management, Stakeholder communication

Domain Knowledge – Engineering recruitment, Graduate recruitment, Junior-level roles, Support functions

General Tech – Python, SQL, Java Spring Boot, AWS, Linux, Git, Jenkins

PROJECTS

Graduate Recruitment Automation Initiative (HCL Technologies)

- Developed Python scripts to automate the initial screening of graduate applications based on predefined criteria, reducing manual review time by approximately 40%.
- Built a system to parse and store candidate data from various sources into a central PostgreSQL database, enabling efficient querying for recruitment drives.
- Created automated email templates for candidate communication, ensuring consistent messaging for outreach and interview invitations across large cohorts.

Internal Talent Pool Enhancement (HCL Technologies)

- Designed and implemented a system within Jira and Confluence to track internal mobility candidates and their skill development progress.
- Collaborated with HR business partners to gather requirements for a more organized internal talent database, improving visibility for potential internal placements.
- Assisted in the creation of standardized documentation for internal application processes, clarifying steps for employees interested in new roles.
