PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and supported hybrid **Microsoft 365 environments**, including Exchange Online, SharePoint Online, and Teams, ensuring **99.9% availability** for critical business operations.
- Administered **Active Directory**, Entra ID (Azure AD), and Group Policy, implementing changes through controlled change management processes and coordinating UAT with business analysts.
- Automated routine system administration tasks using **PowerShell scripting**, reducing manual intervention for user onboarding and access provisioning by approximately **30%**.
- Provided **Level 3 support** for complex technical issues across enterprise applications and infrastructure, acting as an escalation point for the Service Desk and collaborating with vendors for root-cause resolution.
- Led system upgrade projects for on-premise applications and contributed to cloud migration initiatives, focusing on minimizing disruption and ensuring data integrity.
- Developed and maintained technical documentation, including system configurations, support runbooks, and user guides, to facilitate knowledge sharing and support continuous improvement of support processes.

SKILLS

Microsoft 365 – Exchange Online, SharePoint Online, Teams, OneDrive, Intune, Power Platform

Identity & Access Management – Active Directory, Azure AD (Entra ID), ADFS, Group Policy

Automation & Scripting – PowerShell, Logic Apps, AI-based tools

Infrastructure Support – Cloud (Azure), Hybrid environments, On-premise systems

System Administration – Device lifecycle management, Microsoft Endpoint Manager (Intune), System upgrades, Cloud migration

Support & Operations – Level 3 support, Incident Management, SLA management, ITIL frameworks

Documentation & Training – Technical documentation, Training materials, Knowledge sharing

PROJECTS

Enterprise Systems Automation Initiative (HCL Technologies)

- Engineered **Python scripts** to automate ETL processes for a financial services client's operations dashboard, reducing data processing time by **20%**.
- Developed **PowerShell scripts** to automate user account management and access reviews within an enterprise Active Directory environment, significantly improving efficiency for the operations team.
- Implemented automated data validation checks using **SQL queries** across PostgreSQL and Oracle databases, identifying and flagging over **500** data discrepancies per month before they impacted downstream reporting.

IT Operations Dashboard Enhancement (HCL Technologies)

- Collaborated with business analysts to gather requirements for enhancing an internal IT operations dashboard, focusing on improved **transaction monitoring** and alerting for critical systems.
- Developed interactive visualizations and automated reports using **Power BI**, providing key stakeholders with actionable insights into system performance and incident trends.
- Managed change control processes for deploying updates to the dashboard infrastructure, ensuring seamless integration with existing enterprise systems and adherence to audit trail requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
