PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and developed **15+ high-impact Power BI dashboards**, translating complex data from PCI Data Lakes into actionable business KPIs for cross-functional teams.
- Extracted and synthesized large datasets from JDE, Master Control, and cloud environments using **SQL** to identify critical trends and anomalies, supporting data-driven decision-making.
- Developed automated workflows using **Smartsheet Control Center**, bridging operational tasks and data reporting to improve process efficiency by approximately **20%**.
- Collaborated with business units and technical data teams to translate commercial needs into effective data solutions, serving as a key liaison for reporting ecosystem development.
- Authored **SQL queries and Power Query transformations** to ingest and prepare data from disparate sources for analysis and visualization within the PCI reporting ecosystem.
- Proactively identified and resolved inefficient data processes, applying a curious and analytical approach to solve problems before they were escalated by leadership.

SKILLS

Data Visualization & BI – Power BI, DAX, Power Query, Tableau, Smartsheet

Data Engineering & Databases – SQL, PostgreSQL, MySQL, Oracle, Data Lakes, AWS S3

Programming & Scripting – Python, Java, Spring Boot, R

Cloud & Infrastructure – AWS (EC2, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum

Analytics & Statistics – Data Modeling, ETL, Statistical Analysis, Business Intelligence

PROJECTS

Enterprise Business Systems Data Integration Dashboard

- Developed a **Power BI dashboard** to monitor cross-system integrations between ERP modules and operational platforms, visualizing data flows across PostgreSQL and Oracle databases.
- Wrote **SQL scripts** for data validation and reconciliation between interconnected systems, ensuring data integrity for enterprise business processes.
- Collaborated with business analysts to define KPIs and integrate operational metrics into the dashboard, supporting change-control management for system updates.

Financial Transaction Monitoring and Alerting System

- Built a **Java Spring Boot application** to process and monitor transaction messages, providing real-time operational alerting for failed or stuck payment flows.
- Designed and implemented **SQL schemas** and queries in PostgreSQL for storing and retrieving transaction data, supporting audit trails and reconciliation workflows.
- Automated incident response data collection using **Python scripting** and integrated with Splunk for log analysis, reducing manual triage time by an estimated **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
