PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and managed **Microsoft Entra ID (Azure AD)** for identity governance, implementing conditional access policies and multi-factor authentication (MFA) across **5,000+ user accounts**.
- Deployed and administered **Microsoft Intune** for device compliance, managing application deployment and endpoint configurations for a fleet of **~800 corporate devices**.
- Implemented and maintained **Microsoft Defender XDR solutions**, including Defender for Endpoint and Defender for Office 365, actively monitoring and responding to security alerts.
- Applied **Zero Trust principles** to secure Azure resources, configuring network security groups, firewalls, and encryption protocols to protect sensitive data.
- Led investigations for **security incidents**, analyzing threat vectors and providing detailed remediation strategies to minimize impact and prevent recurrence.
- Maintained comprehensive documentation for system configurations, security policies, and operational procedures, contributing to a **15% reduction in incident response time** through improved knowledge sharing.

SKILLS

Cloud & Security Management – Microsoft Entra ID (Azure AD), Microsoft Intune, Microsoft Defender XDR, Microsoft Sentinel, PIM, RBAC, Zero Trust, Network Security Groups, Firewalls, Encryption

Identity & Access Management – MFA, Conditional Access, Role-Based Access Control

Incident Response & SIEM – Security Alert Monitoring, Threat Evaluation, SIEM Tools, Level 3 Incident Management

ITIL & Service Management – Incident Management, Service Request Management, Problem Management, Change Management, Continual Service Improvement

Scripting & Automation – Python, PowerShell

Operating Systems & Infrastructure – Linux, AWS (EC2, S3, Lambda, CloudWatch), Docker

PROJECTS

Cloud Identity and Access Management Enhancement (HCL Technologies)

- Implemented **Privileged Identity Management (PIM)** for critical Azure resources, establishing time-bound access and approval workflows for administrative roles.
- Developed Python scripts to automate the auditing of user access rights and permissions within **Microsoft Entra ID**, identifying and flagging **~120 stale accounts** per quarter.
- Collaborated with internal operations teams to integrate new user onboarding and offboarding processes into the **Intune** device management system, streamlining deployment for new hires.

Security Operations Dashboard and Alerting (HCL Technologies)

- Configured **Microsoft Sentinel** to ingest logs from various sources, creating custom detection rules to identify potential security threats and anomalies.
- Developed automated response playbooks within Sentinel to handle common security alerts, such as blocking suspicious IP addresses or isolating compromised endpoints, reducing manual triage effort by **~30%**.
- Assisted in the creation of runbooks for Level 3 incident response, detailing steps for investigating and resolving security events detected by the SIEM system.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
