## PROFESSIONAL EXPERIENCE

### Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and managed **Microsoft Entra ID (Azure AD)** for identity governance, conditional access, and MFA across 5,000+ user accounts.
- Implemented **Privileged Identity Management (PIM)** and role-based access controls to enforce least-privilege principles for sensitive system administration tasks.
- Deployed and managed **Microsoft Intune** for device compliance policies, application deployment, and endpoint configuration for a fleet of 1,500+ corporate devices.
- Monitored and responded to security alerts using **Microsoft Sentinel** and other SIEM tools, leading investigations for over 40 security incidents within a 6-month period.
- Applied cybersecurity best practices, including **Identity and Access Management** and **Zero Trust Security Model** principles, to secure cloud resources and applications.
- Maintained detailed documentation for system configurations, security policies, and operational procedures, contributing to a 30% reduction in incident resolution time for recurring issues.

## SKILLS

**Cloud Identity & Access Management** – Microsoft Entra ID (Azure AD), PIM, MFA, RBAC, Zero Trust

**Endpoint Management** – Microsoft Intune, Device Compliance, Application Deployment

**Security Operations** – Microsoft Defender XDR, Defender for Endpoint, Defender for Office 365, Microsoft Sentinel, SIEM, Threat Evaluation, Incident Response

**Infrastructure & Operations** – Azure Security, Network Security Groups, Firewalls, Encryption, ITIL, Incident Management, Problem Management, Change Management, Service Request Management

**Scripting & Automation** – Python, Shell Scripting

**Core Technologies** – Linux, Java, Spring Boot, SQL, AWS, Docker, Git, Jenkins

## PROJECTS

### Cloud Security Posture Enhancement (HCL Technologies)

- Implemented granular **role-based access controls (RBAC)** within Azure for a financial services client, reducing the attack surface by restricting user permissions to essential functions.
- Configured **Microsoft Defender for Endpoint** policies across Windows and Linux servers, integrating with Splunk for centralized security monitoring and alert correlation.
- Developed Python scripts to automate the auditing of Azure resource configurations against security best practices, identifying and reporting on misconfigurations to the operations team.

### Endpoint Security & Compliance Initiative (MSc Applied Project)

- Designed and deployed a comprehensive endpoint security strategy using **Microsoft Intune and Defender for Endpoint** for a simulated corporate environment.
- Established device compliance policies and conditional access rules in Entra ID, ensuring only compliant devices could access organizational resources, achieving a 95% compliance rate for managed devices.
- Created a Power BI dashboard to visualize endpoint security status, compliance metrics, and active threats, presenting findings to the MSc project advisory board.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin**

Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India**

2021

## CERTIFICATIONS

---

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
