PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Analyzed complex datasets for the financial services client, identifying trends and drivers of performance for **transaction monitoring** and identifying ~5% of recurring issues for proactive resolution.
- Managed multiple responsibilities within tight deadlines, coordinating **UAT support** and post-implementation triage for system configuration updates across interconnected enterprise systems.
- Developed **Python scripts** for automation and ETL processes, streamlining data ingestion for operational dashboards and reducing manual processing time by an estimated **30%**.
- Designed and implemented **REST APIs** in Java Spring Boot for cross-system integrations, enabling seamless data exchange between ERP modules and operational platforms.
- Collaborated with **business analysts** and operations teams to gather requirements for enhancements to the payments operations dashboard, supporting **regulatory awareness** initiatives.
- Contributed to the development of **Java Spring Boot services**, addressing bugs and implementing new features for enterprise applications, improving system stability by **15%**.

SKILLS

Data Analysis & Visualization – SQL, Power BI, Tableau, R, DAX, Data Modelling, Exploratory Data Analysis, Statistical Analysis

Programming & Scripting – Python, Java, Spring Boot, Flask, FastAPI, R

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Warehousing, Power Query

Process & Automation – Microsoft Power Automate, Microsoft Power Apps, Microsoft Fabric, Jenkins, Git, Jira, Confluence

Financial Services Domain – Payments Operations, Transaction Monitoring, Reconciliation Workflows, Banking Admin, Treasury Cash Movements, Servicing/Cash Management, Surveillance

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **payments operations dashboard** for a financial services client, focusing on improving **transaction monitoring** and operational alerting for failed payment messages.
- Developed **Python scripts** to automate data extraction and reporting for key operational metrics, reducing manual effort by **20%** and improving report delivery timeliness.
- Collaborated with cross-functional teams to gather requirements for dashboard enhancements, ensuring alignment with **SLA management** and audit trail needs.

ERP System Integration & Automation (HCL Technologies)

- Integrated enterprise business systems by developing **REST APIs** using Java Spring Boot, connecting ERP modules with operational platforms to improve data flow efficiency.
- Automated routine data validation and reconciliation tasks using **SQL scripts** across PostgreSQL and Oracle databases, saving approximately **10 hours** of manual work per week for the support team.
- Managed change control processes for system configuration updates and coordinated **User Acceptance Testing (UAT)** for interconnected systems, ensuring smooth post-go-live operations.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
