PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical guidance on product selection and system design for **renewable energy systems** to the sales team, improving proposal accuracy by **15%**.
- Advised customers and installers on optimal **heating and cooling system solutions**, translating complex technical requirements into actionable design proposals.
- Managed inbound technical calls and enquiries, acting as a primary **technical point of contact** for pre-sales and post-sales queries, ensuring timely resolution.
- Developed and maintained **technical support documentation** and user guides for new product integrations, reducing onboarding time for installers by **20%**.
- Collaborated with internal service and commissioning teams to troubleshoot and resolve post-installation technical issues for a range of **HVAC and renewable energy products**.
- Reviewed technical drawings and project specifications to ensure compliance and suitability of proposed **heating and ventilation systems**.

SKILLS

Technical Support – Product Selection, System Design, Technical Guidance, Troubleshooting, Documentation, Customer Support

Engineering – Mechanical Engineering, Building Services Engineering, Renewable Energy Systems, Heating Systems

Customer Interaction – Technical Sales Support, Customer Advising, Professional Communication, Stakeholder Liaison

Tools & Technologies – Power BI, Tableau, R, Python, SQL, Java, Spring Boot, AWS, Linux, Git, Jenkins, Jira, Splunk, Dynatrace

Methodologies – Agile, Scrum, Change Management, Incident Response, Data Analysis

PROJECTS

Renewable Energy System Design Tool (HCL Technologies)

- Developed a Python-based tool to assist sales engineers in selecting appropriate **renewable energy components** based on customer project parameters, reducing manual calculation time by **30%**.
- Integrated data from product datasheets and performance metrics into the tool, ensuring accurate system sizing for heating and ventilation applications.
- Authored comprehensive user documentation and conducted training sessions for the sales support team on the tool's functionality and benefits.

Technical Documentation Platform Enhancement (HCL Technologies)

- Enhanced an internal documentation platform using Java Spring Boot to improve searchability and accessibility of technical support materials for enterprise customers.
- Implemented a new versioning system for technical guides, reducing instances of outdated information being referenced by support staff by approximately **25%**.
- Managed the migration of existing technical documentation to the updated platform, ensuring data integrity and minimal disruption to service delivery.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
