PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided on-site first-line technical support for critical depot hardware and systems, resolving approximately **35-40 incidents per week**.
- Troubleshoot and diagnosed hardware faults across **Windows desktops, handheld scanners, and thermal printers**, escalating complex issues with detailed diagnostic notes.
- Performed network connectivity checks, including **physical cabling, switch port status, and Wi-Fi signal observations**, to ensure reliable depot operations.
- Managed internal and third-party supplier tickets, ensuring accurate logging, tracking, and timely resolution for hardware and software issues.
- Executed installation, swapping, and basic repair tasks for depot hardware such as **RF guns and wearable tech**, minimizing operational downtime.
- Supported operational teams during system incidents by providing **real-time updates** and implementing temporary workarounds, ensuring continuity of service.

SKILLS

Hardware Support – Desktops, Laptops, Handheld Scanners, Thermal Printers, RF Guns, Wearable Tech, Kiosk Devices

Networking – LAN, Wi-Fi, Cabling, Switch Ports, Physical Connectivity

Operating Systems – Windows, Linux

Ticketing & Documentation – Jira, Confluence, Ticket Logging, Escalation, Runbooks

System Administration – WMS Access Management, User Provisioning, De-provisioning

Troubleshooting & Diagnostics – Fault Isolation, Issue Replication, Log Analysis

PROJECTS

Depot Hardware & Connectivity Support (HCL Technologies)

- Supported a large-scale distribution centre environment by providing on-site technical assistance for critical hardware and network infrastructure.
- Managed incident resolution for end-user computing devices, including **desktop and handheld scanner** troubleshooting, reducing average resolution time by **15%**.
- Documented common hardware failure modes and basic repair procedures, creating a knowledge base that improved first-time fix rates for the support team.

Warehouse Management System (WMS) Access & Operations Support (HCL Technologies)

- Administered user access for warehouse management systems, processing **~200 requests per month** for granting, modifying, and revoking permissions in line with security policies.
- Collaborated with depot operations teams to troubleshoot system access issues and provide timely workarounds during critical periods, ensuring smooth workflow continuity.
- Performed physical checks on server room equipment, including **LED status monitoring and cabling integrity**, to proactively identify potential infrastructure risks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
