PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Diagnosed and resolved hardware, software, and operating system issues for a user base of ~**150 employees** across Windows 11 and Microsoft 365 environments, maintaining an average ticket resolution time of **4 hours**.
- Managed user accounts and access controls within **Active Directory** and **Microsoft Exchange Online**, processing over **500** account creation and modification requests monthly.
- Installed, configured, and updated a variety of software applications, including **Microsoft 365 suite** and specialized enterprise tools, ensuring all devices adhered to security policies.
- Supported end-users remotely using **TeamViewer** and **Microsoft Teams**, addressing issues related to software errors, network connectivity, and peripheral devices, leading to a **15%** reduction in repeat support requests.
- Prepared new employee equipment through system imaging and asset tagging, deploying standardized software configurations to ensure prompt onboarding and productivity.
- Maintained comprehensive documentation for IT procedures and troubleshooting guides, contributing to a knowledge base that reduced average incident handling time by **10%**.

SKILLS

Operating Systems – Windows 11, Linux

Microsoft 365 – Teams, OneDrive, Exchange Online

ITSM & Support Tools – Jira, Confluence, Splunk, Dynatrace, TeamViewer

Directory Services – Active Directory

Hardware & Devices – Desktop support, Laptop troubleshooting, Mobile device support, MDM

Software Deployment – System imaging, Software installation, Configuration management

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

PROJECTS

Enterprise Application Support Enhancement (HCL Technologies)

- Enhanced production support for critical enterprise applications by developing **Python scripts** to automate log analysis and anomaly detection using **Splunk**, reducing manual triage effort by **30%**.
- Contributed to the stability of a financial services operations dashboard by implementing automated health checks and alerts, improving incident response times for P1/P2 issues.
- Refactored **Java Spring Boot** code for backend services, addressing bugs and improving API response times for internal business systems.

Business Systems Integration & Automation (HCL Technologies)

- Facilitated cross-system integrations by developing and maintaining **REST APIs** between an ERP system and other operational platforms, supporting data flow for key business processes.
- Automated data validation and reporting tasks using **SQL** queries across PostgreSQL and Oracle databases, streamlining reconciliation workflows for an enterprise client.
- Managed change control processes for system configurations, coordinating UAT and post-go-live support for interconnected enterprise applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
