PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and executed small-scale protein purification studies using **AKTA systems** and various chromatography resins, meeting project timelines with limited supervision.
- Authored **protocols, work instructions, and risk assessments** for laboratory procedures, ensuring adherence to Good Laboratory Practices (GLP) and scientific integrity.
- Supported root cause analysis investigations for manufacturing issues, troubleshooting processing problems and providing technical guidance to junior scientists.
- Developed and maintained small-scale models to enhance expertise in **protein purification techniques**, contributing to continuous process improvement initiatives.
- Collaborated with cross-functional teams, including Process Development and Quality Assurance, to integrate laboratory findings into broader project plans.
- Contributed to a culture of operational excellence by adhering to **BCOE procedures** and promoting **Standard work** and 5S principles within the lab.

SKILLS

Bioprocessing – Protein Purification, Small-scale purification, AKTA systems, TFF, Filtration, Chromatography, Resin screening

Scientific Documentation – Protocols, Work Instructions, SOPs, Risk Assessments, Technical Reports, GLP

Data Analysis & Reporting – Data Integrity, Scientific Conclusions, Root Cause Analysis, Troubleshooting

Laboratory Operations – Good Laboratory Practices (GLP), Operational Excellence, 5S, Standard Work

Collaboration & Communication – Cross-functional Projects, Stakeholder Communication, Presentations, Technical Depth

PROJECTS

Biologics Process Development Studies (HCL Technologies)

- Designed and performed small-scale purification experiments for novel protein targets, evaluating multiple chromatography resins to optimize yield and purity.
- Utilized **AKTA Pure systems** for automated chromatography runs, generating detailed elution profiles and quality data for downstream analysis.
- Documented experimental procedures and results in technical reports, providing key data for process scale-up decisions for enterprise clients.

Analytical Method Development Support (HCL Technologies)

- Developed and validated analytical methods for protein characterization, ensuring data integrity and alignment with regulatory awareness.
- Supported troubleshooting of existing analytical workflows, identifying root causes for assay variability and implementing corrective actions.
- Authored standard operating procedures (SOPs) for new analytical techniques, facilitating knowledge transfer across the technical services team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
