PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered **Active Directory** user accounts, groups, and **Group Policies** for a regulated GxP environment, ensuring adherence to role-based security models and audit trail requirements.
- Provided onsite IT support for critical **analytical and operational systems** within laboratory and manufacturing settings, troubleshooting application issues and ensuring system reliability.
- Executed validation documentation and drafted updated **IT-related SOPs** and procedures to support the system lifecycle within a GxP framework, contributing to audit readiness.
- Managed user access controls and resolved login and permission-related issues for various applications, maintaining compliance with cybersecurity and data integrity standards.
- Collaborated with site-based business users and corporate IT teams to facilitate communication and ensure smooth operation of laboratory and manufacturing systems.
- Supported the installation, upgrade, and maintenance of **analytical equipment software**, ensuring systems remained on supported and secure versions.

SKILLS

IT Support & Systems Administration – Active Directory, User Management, Group Policies, Role-Based Security, GxP Systems, Analytical Equipment Software, System Lifecycle Management, Audit Readiness, SOP Development

Troubleshooting & Analysis – Root Cause Analysis, Application Support, Login Issues, Permissions Management, Incident Response, Log Analysis

Databases & Scripting – SQL Server, MySQL, Oracle, Python Scripting

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Docker

Development & CI/CD – Java Spring Boot, REST APIs, Jenkins, Git

PROJECTS

GxP Laboratory System Support Enhancement (HCL Technologies)

- Enhanced the production support framework for a client's **payments operations dashboard** by implementing automated Python scripts for data validation and anomaly detection, reducing manual checks by 30%.
- Refined **transaction monitoring** workflows and operational alerting for failed payment messages, improving incident triage time for the support team by an average of 15%.
- Collaborated with business analysts and operations teams to document system configurations and troubleshoot issues in a strict **regulatory-aware production environment**.

Enterprise Systems Integration & Automation (HCL Technologies)

- Developed and maintained **Python scripts** for data pipeline automation and scheduled reporting, integrating with **PostgreSQL** and **Oracle** databases to support ERP system data flows.
- Supported cross-system integrations via **REST APIs** and database-level data transfers, ensuring seamless data exchange between interconnected enterprise business systems.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for post-go-live support across multiple interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
