PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Prepared sales quotations by analysing architectural drawings and conducting site visits for renewable energy systems, leading to an estimated **15% increase** in quote accuracy.
- Managed and expanded a prospect list, engaging with potential clients via telephone and email to address technical queries and articulate product advantages, resulting in a **20% uplift** in follow-up conversions.
- Calculated heat load requirements for boilers, heat pumps, and radiators using relevant building regulations and grant scheme criteria, ensuring correct system sizing for **over 50 domestic installations**.
- Provided technical documentation and data sheets to onsite installation crews, clarifying specifications for underfloor heating and ventilation ductwork to minimise site delays.
- Coordinated installation schedules by liaising with clients, installation crews, and other trades, updating a **Kanban board** to track job progress across multiple concurrent projects.
- Managed inventory of materials entering and exiting the warehouse, allocating stock to specific jobs and tracking ordered goods to ensure timely delivery and minimise site downtime.

SKILLS

Core IT – Microsoft Word, Excel, PowerPoint, Data Entry, Spreadsheet Management

Technical Sales – Sales Quotations, Prospect Management, Technical Queries, Follow-up

Building Services – Heat Load Calculations, Boiler Sizing, Heat Pump Specification, Radiator Sizing, Underfloor Heating, Ventilation Systems

Grant Schemes – SEAI DEAP Software, Grant Scheme Requirements

Project Management – Kanban Board, Scheduling, Material Allocation, Stock Management, Installation Coordination

Customer Service – Customer Queries, Issue Resolution, Technical Support

PROJECTS

Renewable Energy System Sizing & Quotation Tool (HCL Technologies)

- Developed a Python-based tool to automate heat load calculations and system sizing for heat pumps and radiators, reducing manual calculation time by approximately **40%**.
- Integrated architectural drawing analysis capabilities (simulated) to extract key dimensions for initial quotation generation, improving the speed of preliminary assessments.
- Designed a modular output for generating technical specification sheets and draft quotation summaries, aligning with typical project documentation requirements.

Customer Onboarding & Technical Documentation Platform (HCL Technologies)

- Engineered a Java Spring Boot REST API to serve technical data sheets and product manuals, improving access for installation crews by providing a centralized digital repository.
- Built automated Python scripts to parse and index new documentation releases, ensuring the platform was updated with the latest product information and grant scheme details.
- Implemented basic user role management to distinguish between internal technical staff and external installation teams, controlling access to sensitive project data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
