PROFESSIONAL EXPERIENCE

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed and maintained **Azure infrastructure** across multiple environments, ensuring high availability and performance for core business applications.
- Designed and implemented infrastructure using **Terraform**, enabling repeatable and automated deployments of cloud resources and reducing manual configuration errors by approximately **30%**.
- Developed and executed **PowerShell scripts** and **Azure CLI commands** to automate routine operational tasks, such as resource provisioning and configuration management, saving an estimated **8 hours** of manual effort per week.
- Resolved complex incidents impacting Azure services through in-depth log analysis using **Splunk** and **Azure Monitor**, adhering to strict SLA targets for P1 and P2 issues.
- Built and managed **CI/CD pipelines** using **Jenkins** and **Git** for automated testing and deployment of infrastructure code, decreasing deployment lead time by **40%**.
- Supported and enhanced **Entra ID** (Azure AD) configurations, including **MFA** and **Conditional Access policies**, to strengthen organizational security posture.

SKILLS

Cloud Platform – Azure, AWS (EC2, S3, Lambda, CloudWatch)

Infrastructure as Code – Terraform, Bicep

Scripting & Automation – PowerShell, Azure CLI, Python

CI/CD – Jenkins, Azure DevOps, GitHub Actions

Operating Systems – Linux, Windows Server

Monitoring & Logging – Azure Monitor, Splunk, Dynatrace

Identity & Access Management – Entra ID (Azure AD), MFA, Conditional Access

PROJECTS

Azure Environment Automation and Deployment

- Automated the provisioning of new Azure compute and networking resources using **Terraform**, enabling development teams to spin up isolated testing environments within **15 minutes**.
- Implemented custom **PowerShell scripts** to enforce tagging policies and audit resource configurations across the Azure subscription, improving compliance adherence by **25%**.
- Integrated Azure resource deployment into a **Jenkins CI/CD pipeline**, facilitating automated rollouts and rollbacks for infrastructure changes.

Cloud Monitoring and Incident Response Enhancement

- Developed advanced alert correlation rules in **Azure Monitor** to reduce alert noise by **~35%** and improve the signal-to-noise ratio for critical infrastructure events.
- Created comprehensive runbooks and documentation for common incident scenarios within the Azure environment, reducing average incident resolution time by **18%**.
- Configured **Splunk** dashboards to provide real-time visibility into application performance and infrastructure health metrics across multiple Azure services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India

2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
